this was not what we expected. It's not worth the price. It's pamphlet not a book. It has 2 line of things to do in many cities. However, some things they tell you to do or try wouldn't be something for

everyone. Such as; eat street food. If you're not from India, or used to it, then the street food will most definitely give you stomach issues. I stopped reading after some of the recommendations that seemed unrealistic.

I have so many Indian friends here in the USA who have been asking me to visit them back home and this time for vacations im visiting India for the first time to attend one wedding and i thought this is my chance to explore the beautiful place.i loved this guide as it gave me a some light on the most famous cities n places i can visit, modes of transport to use, food to way, places to shop etc. this guide is surely handy for travellers

There were no photos of India in this book. Very simplistic to say the least. Just flipped through in a dash. One suggestion was to fill your belly with gol guppa which I think is dangerous.

Very little actual information. Better off getting a good guidebook. Writing is repetitive and unorganized. Glad I got this on kindle rather than paying price of printed book.

This book is a joke. If you have one hour of research, you know everything in this book. AVOID

helpful

Marginal. Not worth the money.

Mom loved it!
