Bernard Boutet De Monvel: At The Origins Of Art Deco

Synopsis

Discover the work and life of artist Bernard Boutet de Monvel, a groundbreaking painter of the *caf  society* who was highly influential to the Art Deco movement. Bernard Boutet de Monvel (1881-1949), painter of sportsmen and dandies, was also an interior designer and iconic illustrator of masculine elegance for publications including *Harper's Bazaar*. As early as 1909, he heralded the Art Deco style and became the favored portraitist of the American *caf  society*. Prominent international millionaires – W. K. Vanderbilt, Lady Mendl, Millicent Rogers, the Maharaja of Indore, and the Astor, Whitney, Frick, and Du Pont dynasties – paraded through his studios in New York and Palm Beach. A key Precisionism artist, he reflected the industrial and urban modernity of America's machine age in his stunning landscapes. This monograph – the first to be published in English – sheds new light on the artist's protean work and restores his place at the forefront of the history of French and American art.

"Come with me this week to discover this superbly illustrated and highly collectible new volume about Bernard Boutet de Monvel (1881-1949), the chic portraitist, who in the twenties, thirties and forties, in Paris and New York and Palm Beach, captured the likenesses of *caf  society*. . . This is one of my favorite recent books – and an essential reference book for designers, artists, photographers and everyone drawn to this alluring and glamorous era. The text is detailed and informative. Images of his interiors and locations capture the elegant era with

perfection."•The Style Saloniste"[Bernard Boutet de Monvel] displayed multiple artistic gifts as painter, engraver, sculptor and fashion illustrator for Harper's Bazaar and Vogue, as well as interior decorator. [Bernard Boutet de Monvel: At the Origins of Art Deco] tells in fascinating detail the story of this life and the art that made it so."•Sotheby's Magazine "Boutet de Monvel painted all the top people in high society, in all their perfection. In doing so, he created some of the most perfect likenesses of the 20th century. The Maharaja of Indore, immaculate in white tie and tails, is his masterpiece, but he was capable of painting and drawing anyone in fine feathers, male or female. He has been largely neglected as most of his work is cloistered away in the family homes and vaults of his sitters, and that is why this book is so valuable in that it shows us work not seen for years, work that immortalised the perfect craftsmanship of the tailors and dressmakers who made sure that the upper crust were always perfectly clothed for their portraits, as they were for their lives of grand balls and cafe society. This book brings the era of Art Deco vividly to life in a way different to any other."•Colin McDowell, BusinessofFashion.com

Stéphane-Jacques Addade, art historian, is a specialist on Bernard Boutet de Monvel. He has devoted several exhibitions to the artist and published a few reference books in French.

Bernard Boutet de Monvel : Origins of Art Deco is the most beautiful book of 2016. This revised volume, previously only available in French, is a stunning overview of his life and work. I have long admired the work of this artist. In the spring of 2016 Sotheby's auctioned off the contents of his Paris home and studio and sparked a new interest in his work. The book is large, 14 x 11, and the photographs are bright and crisp. The book starts with his early life and origins and focuses on some of the work of his artist father(also an unsung master). Then it details his start, life in Paris and the US, painting Norman Rockwell-like detailed portraits of the rich and famous of the day. You will not regret this purchase.

Incredible book about an overlooked master of portrait painting. Bernard de Mounvel epitomized Parisian society and lived among the denizens who made the City of Lights sparkle.This book is a treasure trove of photographs with brilliant text.

wow!
