# Methods Of Analysis And Detection

## Synopsis

A range of textbooks and teacher support materials for AS and A level Pre 2008 specification. Developed specifically for the new specifications for Advanced Level Chemistry for teaching from September 2000. Methods of Analysis and Detection has been endorsed by OCR for use with the OCR Chemistry specification A. It provides full coverage of the Chemistry option module . In combination with other books in the series it provides full coverage of the Advanced Level specifications. Learning objectives are clearly defined, self-assessment questions (with answers) and exam-style end-of-chapter exercises offer excellent opportunities for independent study. Chapter introductions and summaries provide the basis for structured revision. Clear illustration and student-friendly design make the science accessible to all.
