Age Range: 4 - 8 years

Grade Level: Preschool - 3

## Customer Reviews

Better for older kids. If your child is younger you will need to help them. The shopkins are a little hard to find for younger kids on their own. But still a good seek and find for the shopkins fan. Your child will love yelling out their names as they find them. Very cute.

During the holidays we had several friends over with their children, so I made sure that I had purchased several small presents for them to keep them from getting bored. This Seek and Find book was one of two Shopkins items I purchased and the 6 year old girl who received it loved it. She was excited to show it off to all and it kept her busy for quite some time. Overall for the price and

quality of it, I couldn't have been happier with the purchase.

Yes my daughter, son, and their friends love this book. They have gone through it several times and it is always awesome to have non electronic entertainment. We keep it in the car and they have spent 20-30 minutes on it at a time. My kids age are 5&6. Nine year old friend enjoys it as well.

Ordered this as a Christmas gift for my younger cousin. It came in fairly quickly, but was a little worn on the edges due to the way it was packed for shipping. I skimmed through the book and the level of difficulty seemed to increase as it nears the end of the book. Tried to scratch and sniff the scented stickers, but couldn't smell anything (probably because I'm sick). All in all, pretty good for a \$4 price.

My 4-yo daughter LOVED this book for a recent trip. She used it the entire time - not just the plane ride. Some of the images are very hard to find for a small child, but that kept her interested. The "find the differences" pages are very difficult (even for an adult) and may require help - but overall a great buy!

Great book with cute colorful pictures. I got this for my 5 year old who is very into Shopkins. She loves the pictures, but some of the characters are very hard to find. Includes 100 scratch and sniff stickers (typical "fruit" scratch and sniff smell), about half of which are Shopkins characters, and the other half just hearts in circles. This is a great book to look through, and older kids will have fun with the challenge of finding the characters.

I ordered this as a birthday present. The birthday girl was thrilled. She loves shopkins and this was a great addition to her shopikin stuff. The book was not too easy but also not too hard for her. She loved looking for things. The pages are decorated nicely and colorful. It's a great fun book for any shopkins lover.

Not our favorite seek and find book. The Shopkins are really hard to find - often you can only see a tiny part of their body (their eyes, for instance). If your kid is younger than 7-8, you'll definitely need to help them.
