Customer Reviews

Based on true story, I and my partner were having a bit of uninteresting moments when we made love. Sometimes, I felt like she does not like to have sex with me anymore. I tried to read some articles and books like this and found it effective. Sex positions will add magic during sex. It increases intimacy. And when you read this book, you will also learn the things to avoid to make these sex positions work. Good luck and have fun with your partners.

Awesome book! Every person, especially a man should not be ashamed to read this book because it has a huge impact on sex life. This book really helps to be better in bed and please your partner.

This book might be considered a reading guide for the Kama Sutra, which is an illustrated guide to pleasing your partner sexually. Also, in spite of some gender-neutral pronouns, this book clearly envisions heterosexual sex. And there are not many errors, but the funniest by far is a spot which indicates that the man must please his woman AND her lover, apparently it is a reference to a threesome, where the man and the woman are not, in fact, lovers. Or perhaps, the author meant to say HIS lover, instead of her lover. Or it could be fixed by leaving out the word "lover." Overall, though, an interesting read....

Very positive.great book

I love to read and my friends all know that. When asked by a friend if I had read this book I said no rather shyly. So I am going to tell you what I think of this book. I have not read it from cover to cover. I dipped into the parts that answered by curiosity. This book is like having a really good friend or mentor that is knowledgeable and friendly and won't judge you for your curiosity, ignorance or lack of knowledge. The tone is so reassuring and friendly and the perspective is great!
