Infiltration (Phantom Air Combat Book 6)

Synopsis

The year is 1986 and the Cold War threatens to turn hot. An agent is sent to join a carrier battle group in the North Atlantic, his covert mission to help the Soviet Union to track British nuclear powered submarines as they set off to patrol the oceans. To mask his bold assignment a complex diversionary operation is launched from the decks of the aircraft carrier "Kiev", the pride of the Red Banner Northern Fleet. The target; British military radar installations on the Scottish coastline. Commanders respond by deploying Phantom fighters to a remote base in western Scotland to assist Quick Reaction Alert forces where a tense stand-off develops before unexpected events bring the two sides to the brink. Could these be the opening moves of World War 3 or will the intrepid fighter crews foil the Soviet efforts? As with all his books David Gledhill takes you into the cockpit with unparalleled realism for another high octane adventure in the skies.

Customer Reviews

Well written and interesting; it was so good that I have now also obtained Gledhill's book "The Phantom in focus".

Enjoyable continuing stories of some interesting characters and situations. I enjoy this author's work.

The book is a fair read but I could take it or leave it!

Like the English writing style. I eagerly await his latest.

Too weak a response to overt acts of war.
