# Lost Nowhere: A Journey Of Self-discovery In A Fantasy World

## Synopsis

Lily doesn't like change although it seems to follow her everywhere she goes: change of house, change of school, change of friends. She does a pretty good job at rejecting it every chance she gets, but when she stumbles upon an enchanted world full of crystal stone beaches, mermaids, queens and witches, everything moves faster than she can even perceive possible. And no one seems to be bothered by it! She has two choices – stay in misery on her own, or learn how to surrender. *Lost Nowhere* is a poetic fantasy, woven with spirituality and magical realism, that will encourage readers to learn how to accept fate and love themselves. *Lost Nowhere* is a must-read for anyone who has questioned what life is and why we are here. What inspired you to write *Lost Nowhere* ? My obsession with magic began in middle grade, where I was enchanted with our own universe, the sun, moon and stars. By the time I reached my teenage years I had mastered white witch rituals, swam with mermaids and visited fairies. In my dreams, I travelled to unbelievable places, beyond my own imagination. My life danced in one never ending journey, full of spirituality, visionary and metaphysical supernatural synchronicity. I am in constant admiration for all the beauty and magic in the world, that people often forget to see. *Lost Nowhere* is to remind you of how beautiful the world is. Yes there is good and bad, but we can choose to see the good. What kind of reader is going to like this book *Lost Nowhere* is aimed at teens and young adults who are coming of age and have a keen interest in epic fantasy books. The reader is willing to journey with me into an unknown world where witches rule the land and mermaids rule the seas. Neither aware of each others existence, and therefore threatened of one another power. It is relevant to today as misunderstanding often leads to fear. I invite you to come and learn about yourself, as you question everything you have ever known about life and humanity. And be prepared to understand the world in a different light. Perhaps you have noticed changes in yourself and those around you, your world is not as you thought it was. Here I address those issues, and help you understand why you think this way. But with Queens, Witches, Magical Sorcerers, Mermaids, Fairies to guide you as your teacher.

Highly recommended!

This book is different from most fantasy novels I've ever read. The protagonist sets foot in a fantasy world as through a dream, where every character represents a certain idea or emotion, and is led through a journey of self discovery. The main character, Lily, starts off as a troubled teenager and as the book goes on, she evolves with the help of the numerous characters of the book. The book focuses more on understanding life and reality, rather than identifying a good and an evil; it focuses on accepting every aspect of life rather than battling with the things we don't like or understand. Every character has a meaning and the elements of the book are highly spiritual. What I love the most about the book are the descriptions and world building: a world of mermaids and crystals, of rituals and queens that rule different sides of this enchanted realm, ruling by their own convictions. Every character represents an aspect of life or emotion that you should go through and experience in your journey to self discovery, starting with the most sincere kindness and ending with the most unpleasant grief. It teaches us that we must embrace every emotion, that we are able of doing as much as we can imagine only if we ever dare to dream. We are able to make ourselves rise or fall depending on what we are more attracted to. The book teaches us that there is good in the world and always a hand we can reach to when in need and that sometimes the bad things must be embraced and taken as they are, for we cannot change the course of destiny or fate, we cannot interfere and try to stop something that is meant to happen. Every journey has a destination, every encounter a lesson to be learned. A life does not end in vain, every bit of existing energy is used, restored and recycled, never dead or gone. I was really surprised by this book. Although it challenges you to rethink your understanding of life and parameters of reality, it is incredibly easy to read. The actions are fluid, the characters are easy to love and get to know. The descriptions, once again, are the best part of the book, every setting and character being described individually.

As someone who rarely reads fiction, and hadn't read a book just for fun in over a year, "Lost Nowhere" was a real treat for me! I was impressed by all of the rich details, as well as by the meaningful messages contained within this book. I felt like I could see everything playing out, like I was right there with Lily--and sometimes feeling as if I *\*were\** Lily. And I really appreciated the deeper messages about acceptance and self-love. Very beautiful. So many books out there lack this kind of depth, and this is presented in a way that is very easy--and fun!--to digest. I highly recommend it.

I really enjoyed this book. It had lots of great undertones of compassion, love, and self respect. I didn't expect to learn as much as I did from reading this; the life lessons sewn into the plot are very strong and positive. The fantasy aspect made it a super fun read and I couldn't put it down for long!! It's got a nice storyline that keeps you hooked. Thank you Phoebe! You did a fabulous job!

If you're looking for magic this book will help you find it
