Language: English

ISBN-10: 0123704731

ISBN-13: 978-0123704733

Product Dimensions: 1 x 7.8 x 9.8 inches

Shipping Weight: 1.8 pounds

Average Customer Review: 3.7 out of 5 stars 9 customer reviews

Best Sellers Rank: #189,338 in Books (See Top 100 in Books) #25 in [Books > Health, Fitness & Dieting > Diseases & Physical Ailments > Hearing Problems](#) #209 in [Books > Textbooks > Medicine & Health Sciences > Allied Health Services > Audiology & Speech Pathology](#) #246 in [Books > Medical Books > Allied Health Professions > Audiology & Speech Pathology](#)

Customer Reviews

Pre-publication quotes: "William Yost has done it again, updating his text Fundamentals of Hearing with recent information and better and more lucid figures. Fundamentals of Hearing is the preferred text for explaining the fundamentals of acoustics and hearing science for undergraduate communication studies majors." --Reinhardt J. Heuer, Temple University "Yost has expanded and improved upon a highly accessible book that proves and impressive comprehensive treatment of the basic aspects of hearing. This new edition is current and will be a valuable text and reference for students of hearing." --Sid P. Bacon, Arizona State UniversityPre-publication quotes:"William Yost has done it again, updating his text Fundamentals of Hearing with recent information and better and more lucid figures. An introductory approach to the auditory world

I bought this for my Hearing Science class. It was required for a "different perspective". Honestly... I looked in it a few times. But the language and substance coverage in the book was way over many of my peers, including myself, and not useful for the class. If you like a technical book filled with tons of information and like a dry read... go for it. But I did not enjoy reading any part of it. Very hard to follow and not easy to read.

This book is an excellent resource for those just entering the field of Audiology.

The book is very detailed and often difficult to understand for students who are just learning the subject. Would recommend for more experienced students.

Great Purchase

Sample questions throughout chapters are helpful, but information format is a bit convoluted.

good stuff in there

My grand daughter used this book in college.

and I wish I had known that when I purchased it. So I am considering selling it back to . I just have to research how to do that.
