## Customer Reviews

The Gags listed in "Epic Gags" are, for the most part, silly and harmless mischief. There are a couple of pranks in the book that are probably ill-advised, however, depending on Dad's

temperament and other factors. (The "Cardines" trick, for example, might be fun in certain climates, but it would be a bad idea to pull this prank in Texas - or anywhere else with intense heat - in the middle of the summer.) If the prankster hasn't yet developed a set of filters that include good judgment, you may want to require they seek permission from a more responsible party before pulling these pranks. ;) The author starts off with advice and tips for children. Employing the tips will enhance the fun. For example, he reminds them to be choosing their timing wisely, and being considerate by cleaning up any mess in the aftermath of the prank. But why limit your fun to Dads? Most of these pranks would work equally well on any unsuspecting target.

The Best Prank Book - Prank Your Friends and Family! Funny pranks to pull on others. Warns you to try them first and to be sure there is enough time for the one getting pranked to become clean before they head off to like work or school. Silly pranks and so many of them. Hope they don't get mad.

...but I don't want my son balancing a bucket of water on top of a door. Or putting something gross in my shoe. Or hiding food coloring in his brother's toothbrush (and staining everything in the vicinity). I adore a creative, hilarious prank. But very few of these struck me as even mildly funny. And some could do expensive damage.

For very young kids, it would be fun. Not what I was looking for though.

This book rules I love the pranks in it! I would recommend this to any other kid that likes pranks

I LOVED THIS APP BECAUSE OF THE AWESOME FREE PRANKS YOU SHOULD TRY THEM  
BECAUSE WHEN I DID THEM ON MY DAD HE FLIPPED SO GET THIS BOOK!

I chose the rating because it funny and I can do some of the pranks. I dislike is if some you did some of the pranks you can get in trouble. I recommend this to the people love to laugh at people.

This is a great book for kids who love practical jokes. Actually this is a great books fore kids.. Period! I think some adults might also enjoy some of the fun ways to have a laugh at someone else's expense. All the jokes are funny and not harmful and i think most folks would enjoy them... Although you gotta feel sorry for dad!
