Winnie-the-Pooh, The Original Version

Synopsis

This is an exact reproduction of the Original Winnie-the-Pooh published in 1926. Winnie-the-Pooh is perhaps unique in that it is based on real people and historical events. Christopher Robin was a real person. As a child, he had a teddy bear he named "Winnie-the-Pooh". The bear was named after a real bear in the London Zoo named Winnie. The introductory chapter in the book "Winnie-the-Pooh" explains how the teddy bear got his name. The stories later in the book are fiction, but the beginning introduction to the book is factual. Because this book is about real people and events, this places the book in a different legal position than other children's books with cartoon characters such as Mickey Mouse and Donald Duck which are purely the inventions of their creators. The real Winnie-the-Pooh is now on display at the New York Public Library.

Book Information

Paperback: 168 pages

Publisher: Ishi Press (August 1, 2011)

Language: English

ISBN-10: 4871873005

ISBN-13: 978-4871873000

Product Dimensions: 5 x 0.4 x 8 inches

Alan Alexander "A. A." Milne (born 18 January 1882 – died 31 January 1956) was an English author, best known for his books about the teddy bear Winnie-the-Pooh and for various children's poems. Milne was a noted writer, primarily as a playwright, before the huge success of Pooh overshadowed all his previous work.

Exactly what I was looking for. I prefer the look and feel of hardcover books. I usually take the dust cover off because I like the look of the raw book, and this book was no exception. Under the dustcover over this book is a beautiful mustard yellow color with little silver bees engraved in it. It's adorable! I love it.

A. A Milne was my favorite author when I was a child! I try to re-read this book every year; It is fun & makes me laugh right out loud! My third grade teacher read this to our class & I found the library in Muskegon, MI where I lived at the time & this was the first book I ever borrowed. I read it to my own children many times! Milne seemed to have a clear understanding of the imaginary world of Christopher Robin & children in general! Even his poetry reflects Milne's understanding of how to delight a child!

Favorite book of my childhood. This edition is very high quality. The stories are a delight for both the child listener and the adult reader. There are so many humorous things in the visual writing of the stories that amuse an adult reader and keep both adult and child equally engaged in the story. Odd spellings and Important Capitalization are frequent humorous touches to keep the reader amused. The stories do have great lessons on friendship, simple pleasures, expectations, acceptance, but they also reflect the vivid fantasy world and imagination of a child and of the father who can interpret it. Mr. Milne did a fine job of translating the real Christopher Robin's imaginary world into a collection of classic stories for children, parents, teens, non-parents and basically anyone. These stories and characters stay with you through a lifetime. When I was expecting my son, my friends gave me a Hundred Acre Wood Baby Shower, because, unknown to me, I had mentioned Pooh enough times that it was noteworthy. Also, BTW, the authentic Pooh and friends toys are on display at the NYC childrens library in Manhattan. Me and my son have been there with our own Pooh Bears for a photo.

I received this book and was read to from it by my mother when I was six. I LOVE those memories. I'm 53 now and bought this for my six year old granddaughter and when she visits, she brings it so I can read to her. It's a timeless classic and so much better than an electronic gizmo that requires to imagination or human interaction. Love it!

This was a gift for a five year old girl. I still have my book from my childhood and I love all the poems and illustrations. Thank goodness it is NOT the Disney version of Pooh, Christopher Robin, etc! This is my second favorite Milne book. The first is "Now we Are Six," which I will give to the five year old on her sixth birthday. Seuss is really good, but no one comes close to Milne for great poetry for children. Check out "Now We Are Six." I still know some of the poems by heart, in my seventies! I can't speak to the condition of the book, as I had it sent to the recipient. It did arrive when it was supposed to.

Throw away your commercial Disney products and their spinoffs--here is the REAL Winnie the Pooh. Together with the first volume simply titled Winnie The Pooh these are among the best books I have ever read--as a child, as an adolescent, as an adult, to my children, and now to my grandchildren

Excellent is the best description. Stories filled with lovable characters and beautiful language. Wonderfully recorded by some brilliant British performers. I believe these stories, read so well, help a child feel happy and secure by letting them slip away into an imaginative world that embraces them with love while still guiding them in some lesson of life. I recommend this for children as young as four years old, maybe younger, not to speak of enjoying it myself when listening with the grandchildren. I purchased this for the grandchildren (5 & 6) for last Christmas and will probably purchase "The House at Pooh Corner" for next Christmas.

Good writing and fun poetry. But a few of the poems were a little long for a small child to follow and keep interested. On the whole, I like it and will continue to read it to my child. I believe that the poems will grow on her, just like mother goose. I recommend this book.
