Customer Reviews

I loved it but i thought is was a little short otherwise the best. This was the only fingerboard book i found.

Great book you should read this because it will teach you the basics of fingerboard and the advanced fingerboarding if you want to be a pro read this

I love how it gives you a detailed summary of parts of the board, board setup, and basic and advanced trick instructions. This is definitely a book I recommend for beginners looking for a way to pass the time and pro in need of sharpening their skills to get that one little kink out of their kickflip.
