Age Range: 7 - 8 years

Grade Level: 2 and up

## Customer Reviews

This is a great review/practice for my son who is 6 years old and in 1st grade. This is a great introduction to correcting sentences and writing correctly. My son is able to read the sentences and about 80% of the time can correct them on his own. We do one lesson a day and 2-3 on the weekends. I really do love the layout of this book. We are on week 5 I believe, and I can tell a difference in the way my son is speaking. You can tell this book and review is changing his verbiage that he uses when speaking. My goal is by the time we get halfway through the book, he will be able to do most of these on his own. He is being introduced to commas, more challenging homophones

and knowing when to add a word and remove a word, as well as using the correct tense in the sentence. I would definitely recommend this book!

I used this workbook while teaching second grade. Now retired BUT tutoring second-grade students, it remains a useful tool to address the areas of language arts.

I really like these daily language books. Our daughter is an ELL and really needs additional help with the basics of the English Language. I originally bought her Grade 3, but decided to back her up to the Grade 1 book due to her having a bit of difficulty with some of the vocabulary words at that level. She is an older adopted child and is pretty much learning English from the ground up, so we go through the weekly lessons, and I explain the rules behind it. She is learning some English at school, but there just isn't enough time for the school to go through everything that she needs to learn, so I supplement at home with this book. I really like it and, more importantly, she feels comfortable with it.

If you check your records you will see that I returned this item. It was not the same edition as advertised on your website. Please update your website.

This book has a daily language review for each school day. There are so many grammar concepts included I cannot name them all. I am pleased with how children are able to engage in the use of different concepts together verses the focus on once concept at a time. My son has been able to see how capitalizing the first word in a sentence is just as important as the use of proper punctuation. There are no pictures however the book includes a section at the end of each week for the child to keep track of how many they get correct for each day of the week. This has been encouragement for my child and he seems to feel as though he is helping me keep track of his progress.

I teach 1st and 2nd grade and I didn't feel my students were getting enough grammar practice in the language arts curriculum. These have been GREAT! I bought the 1st grade book also. A lot of the kids really enjoy doing these. They're simple but get the job done. I'm very impressed with how much more my students have learned this year than the year before I had these books. Highly recommend!

My daughter was having trouble in Language Arts so I bought this book for her to do over the summer. She does a week of lessons a day. When she first started she was terrible but by week 7 (day 7) she was getting A's with little to NOT help. Worth the money.

I use this book in conjunction with the daily math review as a morning work review. It covers a variety of grammar and phonics questions. It is perfect practice for my students. They always need help with grammar.
