“Approximately 50% of all marriages in the United States end in divorce. Marriage is one of the few personal contracts in which the state you live in dictates the terms of a divorce -- unless a couple create their own customized premarital agreement. Combining Nolo's legal expertise and plain-English writing, this newly updated and expanded fifth edition of *“Prenuptial Agreements: How*

Simply stated, "Prenuptial Agreements" should be a part of every community library collection." The Midwest Book Review, James A. Cox, Editor-in-Chief

This is the only productÃ¢â¬â¬¢ online or in printÃ¢â¬â¬¢ to lead readers step-by-step through the process of drafting a comprehensive prenup that will be valid in their state. ItÃ¢â¬â¬¢s great for any couple getting married, but will be particularly useful for couples who are interested in keeping property or a business separate, or providing for kids from a prior marriage.

Great book and resource. Read the sample online before you buy it. The sample tells you exactly what the book covers, and will help you decide if the book is for you. You do not need to buy the book to get the forms. The link to the forms is in the sample. The book is great at explaining in layman's terms what each part of the document pertains to. So if you need that extra information, get it. When we submitted our prenup to our lawyers they were impressed with how perfectly it was written, and had no edits to make.

Excellent Book. Great detail and specifics. This book is seriously needed -- nationwide. FAIRNESS is so needed in these "Prenups", and this helps cover that. Obtained book for my son.

This book should have been taken off the market as soon as the websites given in the book were no longer viable. A real rip-off as that is what we needed to get CURRENT information. I really want my money back !

Back in 1995 I did my divorce using NoloIn 2003 I did my chapter 7 using NoloNow I am doing my prenup using NoloThe are great and this book it great!!Thank Goodness there is a company like

Nolo to help us.

Nothing new for anyone who has thought about a prenup

I found this book extremely informative, the worksheets are very helpful in getting started. Doing a prenup can be intimidating too and it helped take some of the fear out of doing a prenup. I realized that doing one is best for both of us. I definitely recommend this book!

This is an excellent reference and guide. Lots of information, more than most will need, but it provides a template, guide and then suggests nearly every contingency one might consider. We found the basic elements that we needed and composed around simpler requirements. The iron clad lawyer proofing and brass knuckle document strategies mostly work to a lawyer's advantage, not to yours, so we kept the basic subjects to fewer groups of money, property and inheritances defined for separation, divorce or death. This was followed up with a Will and a Living Trust, using the same Nolo books. For firming up new relationships, this a best book to go with, but think in terms of only your needs and not the totality of the book, or you'll be frustrated.

Don't put your head in the sand. Think it out now and work it out now. Divorce is painful enough, fix this NOW. Before you are married. It is good to talk about your concerns and protect each other in life and in death or if there is a need to divorce.
