Field Hockey: Understanding The Game 2017-18

Synopsis

A common, and oddly accepted, lament heard at field hockey games goes something like this, "I've been watching field hockey for 10 years and I still don't understand what's going on." Field hockey just isn't THAT complicated and, short of learning how to umpire on UmpireHockey.com or playing for 20 years, this book will help you better understand the game whether you're a player, coach, fan, reporter, or umpire. The book is updated annually as required by rule changes by the FIH, NCAA, and NFHS.

Customer Reviews

Cris Maloney brings four decades of field hockey experience as a player, coach, umpire, and umpire coach to the pages of this great book. Among other things, he is the author of the High-Performance Umpiring & Current Rules online course available via computer, tablet, or smartphone from UmpireHockey.com, created and serves as editor of the Ask The Umpire feature on USA Field Hockey's website, created the JUMP IN umpire training program, founded New Jersey's Garden State Games Field Hockey Event, and has served as the play-by-play announcer at international events hosted by USA Field Hockey.

This book is really helping me understand the game that my daughter is playing. Would recommend it for any parent that has a child playing field hockey and they did not play themselves.

This book provides a very comprehensive understanding of the game. As a parent of 2 avid players,

I have found it quite helpful in improving my knowledge of the rules.

"I just got this book and all I can say to Cris is, thank you! It is absolutely great, and just what I have wanted for years."

This book is written for umpiring the game. Not helpful with coaching or learning the game.

My granddaughter loved it

The book has a lot of information. I am not sure if anything will make this game easy to understand

Really helped my understanding of the game.

Worthless book if you don't have a good knowledge of field hockey. No index, listing of rules, starts out identifying changes of rules how foolish if you don't know the rules.
