The Complete Book Of Wreaths: 200 Delightful & Creative Designs

Synopsis

“This book contains 200 awe-inspiring wreaths, each with a full-page color photograph and assembly instructions. Celebrate a baby’s birth with a wreath of wooly pampas grass and a toy lamb. You can even celebrate your own special interests with a wreath of feathers or sheet music. In addition to new ideas and inspiration, you’ll discover that wreath making is easy for beginners and experts alike.”

Customer Reviews

This compilation of material from 11 books on wreath making previously published by Lark gives a good overview of all aspects of this very popular craft, including wreaths made of dried or fresh plants, fabric, stuffed animals, candy, or found objects. A section of wreath-making basics precedes the large, full-color illustrations of wreaths by many designers. There are no step-by-step projects, so crafters must use the pictures and construction tips provided by the designers. Since no two wreaths are ever alike, this should not create problems. This is a good selection for libraries needing more wreath-making material. Copyright 2001 Reed Business Information, Inc.

The book was used but in like new condition. The book had lots of wreaths; but seemed they were all older styles and not very vibrant. I would have thought it would have more up to date styles but

was still a good book for the price and for anyone that wanted older styles.

Beautiful wreaths with clear detail on how to make it and the supplies you will need. An older book, but well worth it!

I like this book; however, some of the ideas are kind of weird and not easy to create. The basics are very good and helpful. I enjoy making wreaths and I hope to eventually start a business making wreaths, decorating baskets and creating other handmade home decor, so this is just one of the many books I hope to purchase to help me get started.

Easy to read and follow instructions.

I bought this for a friend. I have one and I love it.

perfect for ideas

No instructions or explanations on how to make these wreaths.

I bought this book to see if I would be able to make some wreaths for my home. Having never done it before, it is very encouraging to see the instructions photographed and clearly written in this book. The wreaths are absolutely gorgeous and detailed, and I loved seeing the different types. Being a beginner, I also appreciated the listings of all the flowers and supplies needed for each wreath, which are included in the descriptions so I don't have to guess at how much I need of anything. I recommend this book to anyone who wants to make a beautiful wreath, even for the first time.
