## Customer Reviews

Recipes for vegan burgers, hummus, all kinds of salad, soups, even alkaline pizza! So if you want to learn to cook healthy and want to lose weight in the process, then this book is for you! JV

Great book, awesome recipes!!!

Book..was advertised wrong..book was tooo small...not the information i was looking for..iver all bad experience hence rhe 1 star

great book

Thank You!

I like how the author went through the whole process of carefully explaining what the Alkaline diet is. With the substantial introduction, it won't be so daunting to try this type of lifestyle and diet program with the seemingly technical-sounding name. So far, the recipes in this dinner collection look tasty judging from the variety of ingredients included in every recipe. Following a carefully planned menu ensures good nourishment rather than just randomly picking any food we

can think of at the moment.

Incredibly disappointed that I wasted money on this useless book. I can find better recipes online...for FREE

The book was not worth \$13 all the recipes were nothing but salads all the other information I could've gotten on line for free. Then I was annoyed with all the emails I was getting from the author
