Power Vs. Force

Synopsis

Imagine—what if you had access to a simple yes-or-no answer to any question you wished to ask? A demonstrably true answer. Any question . . . think about it.

—from the Foreword

We think we live by forces we control, but in fact we are governed by power from unrevealed sources, power over which we have no control.

—from the author's Preface

The universe holds its breath as we choose, instant by instant, which pathway to follow; for the universe, the very essence of life itself, is highly conscious. Every act, thought, and choice adds to a permanent mosaic; our decisions ripple through the universe of consciousness to affect the lives of all.

—from Power vs. Force

[A] beautiful gift of writing . . . [You] spread joy, love, and compassion through what you write. The fruit of these three is peace, as you know . . .

—Mother Teresa

. . . particularly timely . . . a significant contribution to understanding and dealing with the problems we face today.

—Lee Iacocca

I especially appreciate [the] research and presentation on the attractor patterns of business . . .

—Sam Walton

“Overwhelming! A masterpiece! A lifetime work!”

—Sheldon Deal, President, International College of Applied Kinesiology

Great book! It came highly recommended by a personal friend. I read this in preparation to read and more fully understand Hawkins' "Transcending the Levels of Consciousness". I recommend all of Hawkins' books. If you read more than one of Hawkins' books, you will find that he repeats his foundational concepts in each book. I find this helpful to "cement" the concepts more solidly. These can be skipped over easily and Hawkins recommends this for some readers. Certainly, if we all applied ourselves to the principles that Hawkins espouses, our lives and culture would improve. Hawkins is not the only one saying and proposing this.

Great book. This covers our current level of collective consciousness very well. Folks need to wise up and understand their true potentials. Living a peaceful, joyful loving life is very possible.

This book reinforced my personal practices that I have been doing for years. Also inspired me to write on detailing another great misunderstanding. I already have one book on "Ride Like Potato"

I think that if people in all walks of life would use his muscle testing system, this world would be a much better place to live. I would love to have everyone on the planet, especially the decision makers of the world read this fascinating book, and use the system that he has discovered. The Universe/God/Higher Power/Whatever is making this world run - not those who think they are in power - but are only actually using force and control to keep others in line.

Some great thought provoking concepts in here. Even if the muscle testing procedure seems a little hokey or far-fetched the overall philosophy of the book is excellent.

Fakin loving this book made me see things in a different way! And I made a video of the map of consciousness for those who want to get a glimpse of it.(:[...]

Classic book. Hawkins rates and names different spiritual levels. This awareness has been an enormous help to me to rise up these spiritual levels. I highly recommend this to any spiritual seeker.

This is an important book. It provides a framework and structure that lets you evaluate and assess emotional and behavioral traits aspects and how they relate directly to your level of consciousness. It makes references to culture, religion, societies and how they evolve or are stuck in their evolution. I refer to it often and have reread it at least 10 times and continue to do so.
