Author/artist Masashi Kishimoto was born in 1974 in rural Okayama Prefecture, Japan. After spending time in art college, he won the Hop Step Award for new manga artists with his manga Karakuri (Mechanism). Kishimoto decided to base his next story on traditional Japanese culture. His first version of Naruto, drawn in 1997, was a one-shot story about fox spirits; his final version, which debuted in Weekly Shonen Jump in 1999, quickly became the most popular ninja manga in Japan.

Working on buying the entire set and this has been the most affordable way to do it. These are the only books our 11 y/o will read without being threatened with torture. I have no idea what all this Naruto stuff is all about, but it's something that has helped him get his daily 1 hour of reading in, and now he will voluntarily read more, often losing track of time.

I loved it!

as a naruto fan i pride myself on getting the best of the best when it comes to naruto and this manga was no exception it was worth the price and the shipping was fast as well if you are a collector like me or are just looking for a book to pass the time i suggest you buy this as soon as possible trust me you wont regret it

Anyone who is a fan should continue picking these up. A hugely popular series in Japan and the United States, and for good reason. It's entertaining all around, and keep you coming back for more.
