The Unofficial Guide To Las Vegas 2017

Synopsis

With insightful writing, up-to-date reviews of major attractions, and a lot of "local" knowledge, The Unofficial Guide to Las Vegas has it all. Compiled and written by a team of experienced researchers whose work has been cited by such diverse sources as USA Today and Operations Research Forum, The Unofficial Guide to Las Vegas digs deeper and offers more than can any single author. This is the only guide that explains how Las Vegas works and how to use that knowledge to make every minute and every dollar of your time there count. With advice that is direct, prescriptive, and detailed, it takes out the guesswork. Eclipsing the usual list of choices, it unambiguously rates and ranks everything from hotels, restaurants, and attractions to rental car companies. With The Unofficial Guide to Las Vegas, you know what's available in every category, from the best to the worst. The reader will also find the sections about the history of the town and the chapters on gambling fascinating. In truth, The Unofficial Guide to Las Vegas by Bob Sehlinger emphasizes how to have fun and understand the crazy environment that is today's Vegas. It's a keeper.

I love the Unofficial Guide series. I've been to Las Vegas a few times before, but this guide helped me to get some additional pointers that I hadn't been aware of, such as additional attractions, good places to park, and how to use the Las Vegas Monorail. I also found the section of tipping etiquette to be very helpful as well since I never know what is the right amount to tip for things in Vegas. Our trip was a success with these extra pointers!

I bought this book for a trip to Vegas last December. We found much of this book very helpful. I loved that I was able to book our hotel and buy our tickets to shows with confidence, even though we knew nothing about Vegas first hand. We had a great vacation (and we don't gamble) largely due to the tips used from this book.

If you are going to Vegas - order this book! It gave us great ideas for Red Rock Park and were able to take what they recommended as their favorite hike where we ended up with a beautiful view of Las Vegas. I highly recommend this very informational book.

Definitely a good guide to tackling Las Vegas. It is not nearly as large nor as annotated as its sister publication for Walt Disney World (which is a phenomenal guide book--and I live there!). I liked how the WDW guide book contains many tips and actual reader anecdotes (missing here). However, we've more than saved the price of this book already with figuring out how to get around, how to book shows, and some local scams to avoid. Definitely worth buying.

Great book. Helps a lot when choosing a hotel and checking out shows etc. A lot of helpful information

The book is all over the place. For example, information about one hotel may go on a page or two

then just a brief paragraph about next hotel. I would of preferred equal information about all hotels, shows, restaurants, etc.. The book did offer tidbits of information.

Useful because I am going to Vegas in October

Very detailed descriptions!
