# Llewellyn's Complete Book Of Astrology: The Easy Way To Learn Astrology (Llewellyn's Complete Book Series)

## Synopsis

The easiest way to learn astrology is to start with yourself. Your astrological birth chart is a powerful tool for gaining a deeper understanding of your unique gifts, talents, challenges, and life's purpose. As you begin to decipher the wealth of information in your own birth chart, you'll experience astrology in a personally meaningful way-which makes it easier to understand and remember. Once you learn the basics of astrology, you'll be able to read the birth charts of yourself and others. This friendly guidebook is the most complete introduction to astrology available. Popular astrologer Kris Brandt Riske presents the essentials of astrology in a clear, step-by-step way, paying special attention to three areas of popular interest: relationships, career, and money. She explains the meaning of the planets, zodiac signs, houses, and aspects, and how to interpret their significance in your chart. Over 30 illustrations, including the birth charts of several famous people—Al Gore, Oprah Winfrey, Brad Pitt, and Tiger Woods, to name just a few—add a helpful visual dimension to your learning experience. Practical and positive, Llewellyn's Complete Book of Astrology offers techniques for using astrology to identify the qualities you seek in an ideal mate, realize your career and financial potential, calculate your luck, and discover your inner strength.

"If you want to teach a class, or just learn astrology on your own, this book will make a comprehensive, clearly written companion." -- Dell Horoscope, January 2008

Kris Brandt Riske, M.A. (Arizona) is the executive director and a professional member of the American Federation of Astrologers (AFA), the oldest US astrological organization, founded in 1938. She is also a member of the National Council for Geocosmic Research (NCGR). She has a master's degree in journalism and a certificate of achievement in weather forecasting from Penn State. Kris has been a speaker at various astrological conferences and has written for several astrological publications. She currently writes the annual weather forecast for Llewellyn's Moon Sign Book and is the author of Llewellyn's Complete Book of Astrology and Llewellyn's Complete Book of Predictive Astrology. In addition to astrometeorology, she specializes in predictive astrology. Kris is an avid NASCAR fan and enjoys gardening and reading.

If you are interested in Astrology; want to get beyond reading the news paper every day, this is your first step. Ms. Riske has written a manual that will not only get you started, but one that you will refer to over and over again. If, like me, you get hooked on this amazing subject and need more, this book will be the foundation of your library. My copy is tabulated and "dog eared" from constant use.

I approached astrology without knowing anything at all about it and this book is extremely helpful! There are a lot of charts, schemes, structured description to give you every explanation in the easiest way possible, which I thought almost impossible to get from a book about something as huge as astrology is. It is a great book for beginners

Love this book. If you love astrology, I highly recommend you add this book to your collection.

The writer seems to give good, clear information regarding the signs, aspects, houses, and placements as well as just gives a good over view of the techniques for interpretation used in Astrology. Good for a beginner, but also the Intermediate level Astrology student will find this a very useful book.

The complications of astrology are clearly stated in this book in a very useable and easy to understand way. Finally, a book that talks about the signs on the house cusps, which I have found

missing in many books on astrology.

This is such a cute book to read! It has some nice little illustrations through out and some diagrams to help the reader further understand astrology and the signs! If you're also a nerd for this kind of stuff, I say go for it :)

This book is one of the best beginner books to Astrology I have read. I began my study of Astrology with Tetrabilios by Ptolomy and got lost as you can imagine. After having read this book, it is much more clear and I am better able to both read and understand Ptolomy. The only thing I would have liked would have been more of a comparison of the different house systems, though I appreciate the author at least naming a few. I am now off to learn more about the different house systems and would highly recommend this to anyone with an interest in Astrology.

Love the information contain inside this mind expanding book!!!! Can't wait to start applying the new info!!!
