This is awesome. Bought it for my son who loves it.

I bought this for my boyfriend and he loves it! The pages are unlined, leaving a lot of room to brainstorm any ideas or take notes

Ã Â A beautiful sketchbook. It has great detail. Has a slip at the back to keep pencils and extras stuff in.

First off, this thing is gorgeous. The pictures provided by the seller pretty much show you everything you need to know about the book, though it's even better looking in person. As far as functionality goes, it's on par with Moleskine sketch/notebooks so don't expect to paint or use watercolors in this thing. That being said, it's great for sketching. I tried using a Pentel Brush Pen on it to test it and it held up very well, though I wouldn't recommend using anything wetter than that. If you're planning on using a fountain pen with this, make sure your first few strokes aren't loaded with too much ink as it will go right through the paper. Pay attention to the listed dimensions of the book to make sure it's not too large for your purposes. If you're looking to complete your Destiny sketchbook collection, do it. This is the best looking one of the bunch, in my opinion. If you're looking for a beautiful sketchbook to house your works of art, get this! Though again, wet media doesn't play well with the pages. If you're looking for a sweet lookin' book to take notes in, get this! I've been using this book for one of my D&D campaigns and it's perfect for it.
