Forever With You (Wait For You)

Synopsis

In the irresistibly sexy series from #1 New York Times bestselling author Jennifer L. Armentrout, two free spirits find their lives changed by a one-night stand—Some things you just believe in, even if you’ve never experienced them. For Stephanie, that list includes love. It’s out there. Somewhere. Eventually. Meanwhile she’s got her job at the mixed martial arts training center and hot flings with gorgeous, temporary guys like Nick. Then a secret brings them closer, opening Steph’s eyes to a future she never knew she wanted—until tragedy rips it away. Nick’s self-assured surface shields a past no one needs to know about. His mind-blowing connection with Steph changes all that. As fast as he’s knocking down the walls that have kept him commitment-free, she’s building them up again, determined to keep the hurt—and Nick—out. But he can’t walk away. Not when she’s the only one who’s ever made him wish for forever . . .

Customer Reviews

It shows true talent to take a character who isn't even on your radar giving them a

truly beautiful, and enticing story. That's exactly what Jennifer did with *Forever With You*. She turned one character's flaws into something relateable, and matched her perfectly with her soul mate. I enjoyed this book for so many reasons, and one being it was unexpected, and with this series, each book is as different than the last. It's a fresh romance filled with everything that makes us blush in the cheeks, and weak in the knees. We first met Nick and Stephanie in two separate *Wait For You* novels. It's a small world after all! I didn't much like Stephanie. She wasn't on my list of characters I would have chosen for their own story, but that shows you how much I know, because Stephanie worked her way right into my heart. We really get to know her, and understand her. Nick was a character; I couldn't quite figure out, but wanted to. That's where the mystery. You see; Nick and Stephanie are what I would call relationship phobic. They enjoy one-night stands, and not having to deal with the hassle of falling in love and being close to anyone. Then you throw these two together, and their similarities are jolting. They meet coincidentally when Nick runs into Stephanie as she's moving in, and helps her with a box, no that's not innuendo. They smiled. She blushed, flirted a little, and hinted that he worked at a bar close by. Stephanie was insanely attracted to Nick, and goes to the said bar. One thing leads to another and Nick ends up at her apartment not to help her carry a box. They have a quick romp, and he leaves, neither of them having any expectations, but you might have heard of crazy Katy and her psychic mouth saying this. "It's her. The one you're going to fall for and fall hard. Oh, boy, you have so met your match. Totally. If Katy says it has to be true, right? Yes, Nick has met his match. He knows it. Everyone knows it. It just may take Nick and Stephanie to get with the program, but when they do it's magnificent. No, I'm not giving anything away, because the story takes off from this point, and you will be glued to the pages. It's emotional, and endearing. Parts may break your heart in two, but when you get to the end, you won't be disappointed, oh yeah there's something super special at the end. Stubborn, strong, hard, caring, are all ways to describe Nick and Stephanie. You wouldn't even have guessed how complex these characters could be. They give as good as they get, and you will easily want to jump into the book and be a part of their world. Stephanie becomes that friend who always has your back, who you can tell anything to. Nick is the stand-up guy, who will protect you when you are in need. Jennifer gives us what we need in this story a part from the sensitive material, we get the sweet, and humorous dialogue we have grown to love from these books, and the true passage into

being adults. Fans of this series will fall head over heels in love, and for me like every book I read from this author, I'm left wanting more, so much more.

Forever With You is another great addition to the Wait For You series. It was also pretty different from the other books in the series. JLA tackles two very tough topics in Forever With You and one of those was very close to my heart and I love how it was handled. I have to start with Steph because she is a fantastic character and I loved her. She is strong and spunky and determined and smart. I love that she broke so many stereotypes. Wait, you mean a girl that enjoys sex and having fun can also have a kickass GPA and land a good job? What?!?! Who would have thought? (Please note the heavy dose of sarcasm there). But yeah. I love that Steph was such a strong female character and I also love that she was normal for lack of a better word. Steph is your typical college student for the most part and she is dealing with the normal things one deals with right after college. She isn't battling any demons from her past or anything like that and I really think that makes Forever With You stand out in the new adult genre. And then there is Nick, who was of course very swoony. Nick wasn't like I was expecting at all. It's hard to explain why, but Nick really surprised me. He is just a great guy. He is also really funny and I enjoyed the banter between him and Steph. Those two were so sweet together and they worked so well. I love how they balanced each other. Forever With You takes the series away from the suspense angle and gives a story that is much more character driven. I really enjoyed getting to know these characters. I also liked that it was different from a lot of other new adult books. The story isn't angst driven and the romance isn't overloaded with drama. The characters face tough issues and while the romance is very much a part of the story it's not the entire story. I mentioned above that this story tackles two tough issues and I don't want to go into those issues because of spoilers. But for those of you who have read it, I just wanted to discuss what Nick is dealing with. Nick's situation hit really close to home with me as I have experience with something similar. It's not easy and it sucks and I admired him so much for everything he did. That whole story line made me heart ache. This book as a whole made my heart ache and it packed a punch. Of course I loved seeing all of my favorite characters again. Seeing into their happily ever after makes me so incredibly happy. I want to be a part of this group and I kinda feel like I am. I also love how the girls are such great friends. That is so important! I love when female friendships are portrayed positively. And then there was a wonderful Cam and Avery moment that made me ridiculously happy. Oh and of course I have to mention Katie because that girl is fabulous and I love

her. Forever With You was a great read and the more I think about it the more I love it. This is the kind of book that sits with you and you find yourself thinking about it randomly days and weeks later. Just don't miss this one please.

Jennifer L. Armentrout did an amazing job with "Forever with You," and I absolutely loved reading Nick and Stephanie's story. Nick and Stephanie were amazing and easily relatable characters, and I loved their personalities and chemistry together. I couldn't help but fall in love with them from the very beginning, and I loved how the author told their story. I will admit some parts were quite heartbreaking at times, but everything was worth it in the end. Nick and Stephanie were perfect for each other, and I loved how their relationship progressed throughout the book. They were very similar to one another, but complemented each other extremely well, and I couldn't help but root for them to work out. I also loved getting to see so many familiar faces and couples from previous books in the Wait for You series, and I loved finding out what happened with them. "Forever with You" was probably my favorite installment in the series so far, and I was quite happy with the conclusion. It wasn't perfect, but it definitely made up for some of the parts that weren't. I truly did love the storyline and characters, and I am honestly so glad that I gave "Forever with You" a chance. It was truly amazing, and even though there were some ups and downs along the way, it was totally worth it in the end. I am deeply in love with the Wait for You series and honestly can't wait to read the next installment!
