## **Customer Reviews**

Alison Behnke is an editor and writer. She has written numerous books for children. Her titles include Afghanistan in Pictures, China in Pictures, Italy in Pictures, Japan in Pictures, North Korea in Pictures, and South Korea in Pictures along with biographies of Jack Kerouac and Pope John Paul II. She has also written for the In America and Easy Menu series and wrote The Conquests of Alexander the Great for the launch of Pivotal Moments. Alison Behnke is an editor and writer. She has written numerous books for children. Her titles include The Conquests of Alexander the Great, Afghanistan in Pictures, China in Pictures, Italy in Pictures, Japan in Pictures, North Korea in Pictures, South Korea in Pictures, Jack Kerouac, and Pope John Paul II.

I got what I paid for--nice & good ,quick delivery

I did not find this book to be worth the price even though there is very little published on Uruguay. It might be of interest to a high school student preparing a paper for geography class though I suppose.

This book aims for a high school report writing audience, but works for adults, too. If you can get this

book from the library or used, it provides very useful information in about 80 pages, including index and acknowledgements. It reads like an outline, but includes lots of practical information. It remains relatively current. The book often refers you to the website for visual geography series, which has links for virtually every country (probably every), with internal links to other websites to lots of useful information. Someone put a lot of time and effort into the vsgbooks.com website and if you don't want to buy the book, you can get all of its information and much more from the website. But the book does an excellent job of summarizing a lot of aspects of Uruguay. And as I said, it gives you useful links, links that don't pop up with general google searches for terms you might think of.
