Joggin' Your Noggin: Fun And Challenging Word Games For Seniors

Synopsis

This second book in the series contains slightly higher-level vocabulary, while using the same popular game format presented in Volume One. All activities are carefully designed to challenge the minds of people in mild to moderate stages of dementia. Written by a Speech-Language Pathologist, the books incorporate research-based activities to stimulate word-finding. Regardless of the level of difficulty, the games provide essential calisthenics to keep the mind active. Unlike most Alzheimer's books aimed at caregivers, these are designed to be completed independently by individuals with the disease, giving them an opportunity for enjoyable leisure-time activity and a sense of pride and accomplishment. When shared with caregivers, family or friends, meaningful interaction is automatic. Individual game items provide a springboard to reminisce about fond memories and create positive feelings. The series offers activity directors or recreation therapists a wealth of ready-made content to incorporate into group activities. The level of difficulty, based on vocabulary, varies from the simplest in Volume I to the most advanced in Volume III. Answers are provided at the back of the first two issues and following each game in the last issue. Each book, containing 70 to 80 games, is sold at a more affordable price than similar products. The "Joggin' Your Noggin" series continues to receive very positive reviews.

Customer Reviews

My mom is struggling with late stages dementia and she has lost the ability to do so many things. Being able to complete these puzzles gives her an incredible sense of accomplishment. Plus it

gives her something to do, so she isn't bored in the nursing home in between their scheduled activities.

Great

this is an excellent book for anyone working with a geriatric group with Dementia!

Mom with dementia continually picks this book up out of many choices; she doesn't solve many, but it must be a positive feeling as I always find her pondering this book with a positive attitude.

This three book series is one of the best ways we have been able to assist an elderly relative recovering from a stroke. I would highly recommend all three books, including this one.

Is great i wsh it were.bigger. My alzhimers and dementia residents love it!

I use this book in my work with Seniors. It has a lot of fun, short activities. Have really had a positive response. Would recommend this book!

Over priced and not challenging.
