Part of a 3-part apocalyptic series based loosely on Revelation. It is well written though I don't especially enjoy first person narrative. It seems perhaps aimed more at a high school level reader, the main characters being a teenage boy and his girlfriend, than an adult reader. The use of nano-technology and brain implants by the Devil in order to bring about his take-over of the world is actually quite clever, a new updated spin on the story. I won't go on and on. It's a novel take on a timeless story, well written, well developed characters. It's a light read but a good read.

Loved the pace of this book and loved the mix of religion, technology and YA. This book is for anyone who likes any of those three topics. While there is a lot to think about in this book, you don't have time! The main character is whizzing all over the world with his enemies not far behind him. You will always want to know what's next. Character development for the main character is excellent. For the non- religious reader: you won't be turned off. There is something everyone.

Most books I read are free and I rarely buy others in a series. The books by JB Simmons are the exception. I bought this one and part 3 before I finished book 1. Great writing and suspense. Here's hoping Mr. Simmons write more of these types of novels. Don't hesitate. Buy the books. You will not be sorry.

I received the first book in the series free. I usually read free books and never/rarely follow the rest of a series. This was the first series that I didn't hesitate to go a buy the next book. It is a riveting series. Now I am throughly engrossed and can not find the next book. We are left clinging to the edge of a cliff with no rescue in site. HELP!!! With that said I would still recommend both books to any reader.

I LOVE THIS BOOK!!! I cannot say how much I love this series!! It is suspenseful, thrilling, and intriguing. The characters are fabulous and extremely well- built up! I recommend it as much as a bear would recommend honey! It is just SO GOOD!!!

Once I started reading it, it was hard to put down, a real page turner :) But it ended too soon.

I have never read a trilogy more unique; it's in a category alone, but it rises FAR above many of the more well known books in similar genres. Totally engrossing, extremely well-written, and somehow, I can absolutely conceive this to be reality in the not-so-distant future. I highly recommend this book.

I was eager to pick up on the plot after the wait since reading the first in the trilogy. "Clothed with the Sun" did not disappoint. It is a classic page turner, if that phrase can be adapted to Kindle. Moreover, it makes me want to learn more about the scripture that is interwoven into the plot. Great read!
