Hitler In Argentina: The Documented Truth Of Hitler's Escape From Berlin (The Hitler Escape Trilogy)

Synopsis

Who said that Hitler did not die in the bunker in April 1945? Josef Stalin told President Harry Truman that Hitler did not. Marshall Zhukov said "We have found no corpse that could be Hitler's." This book not only tells of the escape of Adolf Hitler, Eva Braun and others of the Third Reich; it includes photographs, files from the FBI, CIA and OSS that show the US knew they escaped, interviews and much more. You will also read the reason that no government went after Hitler even though they knew where he was. This book will change the history you were taught in 5th grade.

So so, it is interesting.

Its nice to see that History has different endings than we think.

Brings up some really interesting points. I believe it. The book itself is just a collection of data the author put together with some narration.

Just started reading ----- very interesting information ----- fits well with previous information from Steve Quayle and others.

Excellent first hand account of the Nazi regime's relocation to Argentina. Highly recommended to

those who want an insight to Hitler's retirement years.

The facts as presented are the best part, but writing and organization is terrible.

Having watched the History Channels "Hunting Hitler", I so wanted to like this book. Unfortunately, it is very badly written and horribly formatted. The preface and listing of former Nazi officers rank uses more words than documentation for proof of Hitler's escape. Most of the illustrations are useless as proof of an escape plan and merely take up space to increase the page length. With all the dreadful grammar and formatting you literally cannot read it to find any reasonable evidence of Hitler's escape.

Interesting take on why if true Hitler was left alone. Makes you think about how the US attained in the same timeline many advances in many tech areas. Was a good read
