What an amazing story this is to read about. Aly Taylor is such an inspiration and a beautiful daughter of god. I could easy read book again, but instead I am passing it on to someone else.

Her story is so inspiring! All the people who wrote negative comments did not even read the book and are ignorant people. Adoptive parents, I encourage you to read it. Women struggling with

fertility, I hope you read it. You'll feel not as alone and isolated. As a woman who actually adopted AND a had a child naturally, please read it. It's worth every penny.

This book begins like an inspiration, but then we get into the "adoption is always wonderful" tripe. It's clear when speaking to adult adoptees that adoption is trauma and if you, as an adoptive mother, can't get with that then you're failing the child you're parenting. Also, the attempt to force your child's natural mother into giving you another child is simply disgusting.

This woman is absolutely unscrupulous when it comes to procuring other women's children. She has admitted to coercing her daughter's first/birth mother into placing her child with her, and is currently attempting to do the same with the same woman's newborn -- through prayer!! I am an adoptive parent, and have experienced having a mother change her mind about placing a child with me. More than once. It is painful. But children belong with their biological parents whenever possible, and those children were never mine, nor were they owed to me. I would warn any hopeful adoptive parents against reading this book, as you are sure to receive unethical advice.

The story was poorly written overall and very "fluff". There was really nothing particularly insightful or thought provoking here. I also found her sense of entitlement alarming as well as the means she used to procure a child for adoption.

This book is amazing and I urge YOU to read it! Besides the fact that I know the family, it's a story of hope no matter your circumstances! No I haven't struggled in these same ways but I have struggled as everyone does and this is a life story that shows how powerful our God is!

I have read this woman's post on Facebook and find her attitude towards adoption very concerning. Having been involved with those who are adoptees, birth/first mom, professionals, and adoptive parents. What she is posting is truly concerning as it appears she has not done her homework on adoption or the trauma. It is also apparent all she is not thinking what is in the best interest of the child. It is very concerning when you have a group of people to pray for separation of a baby from its family of origin. That you think you have a right to someone else's baby and that this mother does not have a right to parent. The first/birth mom is not yours as you refer to her. She is the child's mom until placement occurs. Once placement occurs she is the child's first/birth mom. She is not a thing to own and nor is your child. ãfÂçÃ â ã ã

This books is a must read! Truly inspiring!
