Natural Remedy Book For Dogs And Cats

Synopsis

Fifty common pet ailments and the natural methods and remedies optimal to support their treatment are arranged in alphabetical order. The book includes a thorough discussion of several natural healing modalities and how they are used for pets. The methods of treatment include nutrition, naturopathy, vitamins and minerals, herbs, homeopathy, acupuncture/acupressure, flower essences, and gemstones. Each method is discussed for each of the fifty illnesses. Many people use natural healing for themselves, but wonder how to use it for their dogs and cats. This book is a comprehensive answer to that question. Use it with Diane Stein's books *Natural Healing for Dogs and Cats* and *The Holistic Puppy*.

Customer Reviews

Meh. I dont agree with everything here and some of it is just too out there. I did appreciate the chakra map.

As Diane Stein explains, animals are our link to mother earth. Their companionship, their love and

noncommittal trust is what keeps us healthier and happier. In this book, Ms. Stein explores all avenues of pet care from their psychic wellbeing to the foods they need to survive. Anecdotes of her pets and the animals she has healed give lively evidence and support for her methods of animal care. A must for those of us who love our pets and want them to have the best life possible.

Really helps you keep your pet healthy the natural way! I love it. Would recommend it to anyone wanting to go the natural route.

If you have a pet, you will save yourself on vet bills, by buying this book. It's been a lifesaver!!

Because its a book my mom has had and used for over 20 years. ...our cat didn't make it as she had cancer stage 4 before we ever even knew about it. But it has amazing and wonderful chapters on so many topics. ..it has been placed on the book shelves for when my nana who is 88 is ready to get another cat as this loss was very devastating for her

GOOD

Although I do have a background in science (pre vet sciences and more), and holistic methods (started with me then kidney failure in cat due to misinformed diet information from "main stream" vets) I started researching and found this book along with others. (Dr. Pitcairn's for example) Highly informative, and although another on this thread mentioned too complex - well nutrition and healing methods are not simple and need some "home work" as with anything. (although I do have to admit when a pet is sick, one does want assistance, and now here in NYC there are holistic vet. One can go in informed, educated and with best interest of pet cared for thanks to books such as this one. That said - I found her book well laid out, highly educational and well referenced with links to other resources.

I have had this book for many years. It is so helpful for those of us that do alternative therapy Diane Stein is an awesome writer all of her books are wonderful
