Classical Rhetoric For The Modern Student, 4th Edition

Synopsis

Widely used in advanced composition and writing courses, *Classical Rhetoric for the Modern Student* discusses the three vital components of classical rhetoric--argument, arrangement, and style--bringing these elements to life and demonstrating their effective use in yesterday's and today's writing. Presenting its subject in five parts, the text provides grounding in the elements and applications of classical rhetoric; the strategies and tactics of argumentation; the effective presentation and organization of discourses; the development of power, grace, and felicity in expression; and the history of rhetorical principles. Numerous examples of classic and contemporary rhetoric, from paragraphs to complete essays, appear throughout the book, many followed by detailed analyses. The fourth edition of *Classical Rhetoric for the Modern Student* features a new section on the Progymnasmata (classical composition exercises), a new analysis of a color advertisement in the Introduction, an updated survey of the history of rhetoric, and an updated section on "External Aids to Invention."

Wow, this is an incredible book. It covers the whole scheme of things involving writing, from basic logic lessons to exercises for analyzing great prose masters. Indispensable.

I bought this for a college class. It has since become one of my favorite go-to books for referencing. I think it is definitely a good buy.

One of the most useful textbooks I've ever purchased. I'll be referring to this throughout my career.

Knowledge of Rhetoric improves our daily encounters with neighbors. Improves our self awareness. It makes us better people. I recommend it as a supplement to educating our children. Don't rely on the modern teaching all by itself.

A classic. A Must for all teachers and college writers.
