Happy Birthday To You!

Synopsis

"Today you are you! That is truer than true! There is no one alive who is you-er than you!" Since 1959, Happy Birthday to You! — Dr. Seuss —, a joyous ode to individuality — has allowed readers to experience firsthand the thrill of celebrating a birthday as it is done in Katroo. Awakened by the Birthday Bird, you (the reader) are swept out of town on a Smorgasbord —, back to begin a day and night of feasting and feting in such Seussian splendor that it will take 20 days to sweep up the mess!

This is a really fun book to read, a typical Dr Seuss treasure. I purchased this book for my daughters first birthday party and had all of the guests write well wishes and notes for her to read as she got older. Now when she reads the book she has these lovely messages to remind her of how much

she's loved and it made her first birthday that much more special!

This is a great book to help celebrate your little one's birthday, at pretty much any age! There are pop-up pages starting as soon as you open the book so this is a great tool for engagement for the kiddos! My only issue was, and this is my fault, but I did not look at the actual size of the book - it is "pocket-sized" so it is a small book. There is not going to be room to write any long "birthday" message for your little one to keep in the future. Cute book overall though!

Got this book for my sons first birthday. I think a Dr Seuss collection is a must for children. The book is fun with great illustrations. We had everyone sign a little message to him on each page so he can read those as well when he is older. This is a great birthday gift!

We used this as guest book for my son's first birthday. He received the board book version "Happy Birthday baby" which is perfect for him now to play with. This signed version will be put up for a bit.

Really cute book! didn't realize there was a birthday one. My daughter enjoys all the Dr. Seuss ones.

Bought this book for my Kindergartner's first school birthday and asked all his classmates along with a couple of teachers to sign. His Dad and I did as well. I think you could really do for any milestone age or as a guest book at a birthday party!

Great Dr Seuss book. We have read it to our toddler quite a few times. It is a bit long so I definitely recommend it for an older toddler/preschooler and even then you may need to split up reading to keep their attention (at least if your child is incredibly active like mine).

This is a cute book that my daughter used for her son's first birthday. She had all the guests sign or say something special in the book that our sweet grandson will be able to look back and read when he is older. Great idea!
