I'm a middle school Spanish teacher and I use Andrew pages from this book to help supplement but it's not great by any means.

This is a great book to reinforce Spanish I concepts and vocabulary. My son is enjoying using this book. It is a simple yet challenging book for my 7th grader to complete. We will defiantly be ordering the Spanish II book.

It is helpful. But I am just starting to learn Spanish again. I took 2 years in high school and thought I could start at the 6-8 grade..... Nope. I still wanted more basic.

This is for beginners, not very challenging to kids that have been exposed to Spanish in school regularly.

This is a great beginners book for younger teenagers. It's very basic, it would not be good for students who have previous Spanish knowledge.

It is a well written book. We just need a lot more practice to ever be near perfect!

weird book, more of a booklet, poorly written...disappointed

Great book for beginners.
