The Concise Oxford Dictionary Of English Etymology

Synopsis

Did you know:--that the word nice meant foolish or stupid in the thirteenth century?--that deer once referred to any animal?--that cumberbund, pundit and bungalow, all relics of the Indian raj, have been in use in English since the 1600's?--that such words as sandwich, boycott and malapropism take their names from people, both real and fictional?--that sombrero, which comes to us from Spanish, originally meant an Oriental umbrella? These are but a few of the thousands of fascinating tidbits to be found in The Concise Oxford Dictionary of Etymology. Here the reader will find a clear and brief account of the origins, history, and sense-development of a major part of the modern English vocabulary, including both basic words and a wide selection of derivative forms. Begun under the supervision of the late G.W.S. Friedrichsen, this valuable reference book benefits from his many years of experience as an etymologist for the Oxford dictionaries. About the Author: T.F. Hoad is a Fellow of St. Peter's College Oxford.

Book Information

Hardcover: 568 pages

Publisher: Oxford University Press; Edition Not Stated edition (June 5, 1986)

Language: English

ISBN-10: 019861182X

ISBN-13: 978-0198611820

Product Dimensions: 5.8 x 1.3 x 8.2 inches

Shipping Weight: 1.6 pounds

Average Customer Review: 3.4 out of 5 stars 4 customer reviews

Best Sellers Rank: #268,956 in Books (See Top 100 in Books) #187 in [Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Family & General Practice](#) #194 in [Books > Reference > Dictionaries & Thesauruses > English](#) #252 in [Books > Medical Books > Medicine > Internal Medicine > Family Practice](#)

Customer Reviews

C.T. Onions's Oxford Dictionary of English Etymology (Oxford, rev. 1969, \$45) is the source of this compact version, and for the most part the reductions are carefully chosen, as in eliminating the pronunciations of common words and technical terms. But this work is abridged: e.g., over two former pages, between dickens and dignity, entries for dictaphone, dies non, and dight have been deleted, and these deletions are representative. Secondary information has also been cut from individual entries. The result is a handy and compact desktop reference book, well printed and

bound as expected from the Clarendon Press. However, both the original, and Ernest Klein's Comprehensive Etymological Dictionary of the English Language (Elsevier, 1971, \$85) are in print, and larger libraries should have them as well. Stephen H. Cape, Indiana Univ. Lib., Bloomington Copyright 1986 Reed Business Information, Inc.

This is not what I was expecting when reading the description of what was ordered, The word sequence is not in depth enough. The book is easily to carry yet not too complicit in its construct of the English Language in depthness as expected.

Love this dictionary!

Better than expected
