Customer Reviews

Just finished Part One and Two. Saved Pt.One until this one came out. Be warned, you really need to read Pt. One first, or it won't make any sense. These are not stand alone. That said, this is an awesome series! Again, I often forgot the age of the main characters, until reminded by the story line. This is an interesting, well crafted, well created story that will hold the interest of both young readers and older ones, like myself. I found I strangely identified with the feelings of Cal, as he struggled to cope with his less than perfect existence, escaping into dreams. I think the ability to involve the feelings of the reader is a sign of excellent writing. Especially considering how many years it's been since I've experienced those emotions! I am so pleased to have found this author. I

can't wait for the conclusion. My only complaint...the story was too short...I wanted more!

I absolutely love it.... I was hooked by the end of the first page..... Cal and Ash find a friendship neither one thought was ever possible....My only complaint is it is way to short.. I read both books in less than 2 hours and so far I have not found a third book... when will the next installment be out - if it takes too long I just won't want to bother.....which is sad I really like the author and his books

Absolutely love love love love this series. It is a YA book that I fell in love with as it is such an intriguing concept to dream walk and yet it seems to be so real that their bodies are really in a hospital in a coma like state while if they get caught while they are dream walking. Couldn't put it down. Definitely one for younger teens that love fantasy and want something that they can finish quickly.

Shortest book 2 ever! Yes, I like the story. Yes, I like the writting. But I am annoyed that the "2nd" book wasn't just included in the "1st" book. Oh, wait..."Part Two"... ahhh, the light dawns...series, not books---but cleverly disguised to LOOK like books! OK, I'm done.

This is the second part of a single novel, issued in installments. We take up the story where Cal is trying to find Ash in the Dreamframe. It's difficult to say what happens without spoiling Part One for anyone who hasn't yet read it. I can tell you though, that there's a lot of frustration for both of them, as they try to outwit the Gonfalone, the ruler of Florence and the invader of minds. There are times when Cal has to fight for their lives and he discovers to his horror that people killed in this world most definitely die in ours. This increases his fears for Ash.This is a gripping and well written work, but I find it hard to rate it as it isn't meant to stand alone and it doesn't reveal the whole gamut of characterisation and emotion which the larger story contains. I will have a clearer idea if this is just a very good story or something absolutely amazing when I've read it all. So far though, I'm enjoying it and up for the next segment as soon as Darren Andrews can get it written!

This book took much longer to get into than I wanted. While it ended of a great hook I was a bit bored from most of the begining chapters. It felt a little forced and flat in substance to captivate.

I have yet to read anything by D.M. Andrews I have not enjoyed! I can't wait to see what happens next for these two young people.
