## **Customer Reviews**

Fun for parents who are football fans. The writing is generic with pictures of the specific team inserted. I was hoping for some fun facts of the Vikings.

Great book for a daddy to read to his son!

I love looking through this with my 7 month old. She loves the pictures

as expected

Product arrived timely and as described.

I purchased this book for a Viking fan couple who is expecting and am very pleased with the purchase. I am pretty sure my new go-to baby shower gift is going to be one of these books for the parents' team/sport preference (I also purchased a MLB one, same author/publisher). Or, if their parents aren't sports fans, they will be getting the Packers version I plan to buy for my future kids. ;) These books are well made. They use great photos and images and simple wording to easily teach children words and their corresponding images. Most pages list several words for each letter (many action words, not all pictured), so there are some that would need further explanation. The photos, graphics, and overall design are very pleasing. Personally, my favorite touch is how the entire alphabet is listed down the middle of each page spread (at the binding) with the current page letters highlighted in a different color (for this book the letters are purple, with the current letters shown in gold). I highly recommend this book and others by this author and publisher.
