Calligraphy For The Beginner

Synopsis

As an introduction to calligraphy, the author, himself a past master of the art, supplies many different alphabets and shows how each may be applied by drawing, painting, carving or writing with a broad lettering pen. He also gives advice on materials that are most suitable. This is one of the classic books in the field. --This text refers to an alternate Paperback edition.

Customer Reviews

Tom Gourdie was one of the leading British calligraphers for many years. He wrote many books on lettering and calligraphy over the years, and this book has been a standard in the field for more than three decades. --This text refers to an alternate Paperback edition.

It's a decent book for beginners. I have trouble following some of the strokes, and the proper way to hold the pen. As a beginner, this book is a little more advanced than i thought.

very confusing and does not have too much info. i donated it to the local library.

Tom Gourdie's Calligraphy for the Beginner will make you a Calligraphic Winner! You heard it here. I bought this book with hopes of learning how to create some simple calligraphic techniques to write love letters to my girlfriend. After a couple weeks of practicing I felt I was a master. Gourdie lists easy excercises that you can do to teach yourself the basics, then he gives you more ways to improve. If you already know quite a bit about calligraphy, you might want to skip ahead and get a

more advanced book, but if you've never tried it before and are interested in learning and making yourself a calligraphy wiz, then this book is for you. I was having so much fun writing the letters that I didn't even care when my girlfriend broke up with me! Seriously, I'm still using the book to perfect my technique and wouldn't trade it for anything!

NEED TO LEARN THE FUNDAMENTALS.
