The Credit Repair Playbook: How To Improve Your FICO Score, Negotiate Your Debt, And Repair Your Credit

Synopsis

Have you recently been denied for credit cards? Can you not buy the house you deserve? Do you have a subprime FICO score? America runs on credit. Having a good credit score helps you get ahead, save money, and improve your lifestyle. Having subprime credit means you have to work twice as hard to get the same material comforts as someone with excellent credit. Corporate America has set up a system to entrap hard working Americans into debt slavery. A couple missed payments can send your score spiraling down into the depths, making it difficult or impossible to borrow money for your future. Fortunately, you can fight back. Since credit is so crucial, there is a system of checks and balances that you can use to improve your credit score. Credit repair companies will charge you thousands of dollars to use these techniques. In reality, all you need is some education about how the system works. You have to know the system to beat the system! This book includes sample letters you can use to repair your credit, also. Inside: Why your credit score is so important How the FICO score works Why the worse your credit is, the easier it is to improve How to dispute incorrect items on your credit report How to use the fair debt collection practices act to your advantage How to use time limits under the law to win disputes automatically How to negotiate with creditors How to negotiate medical bills and hospital liens These principles are easy to apply and will change your life for the better. Take back the power from the credit bureaus and take your life back.

Customer Reviews

I had no idea that such simple things could fix credit scores. There are so many options for fixing your credit score that I'm glad I have this book to keep track. Honestly, I believe that my score will be significantly improved within the next couple months. Super happy with this purchase!

I learned a lot about how to repair my credit from this book. Cameron Lancaster puts complicated credit worries into layman's terms and allows me to deal with my credit problems in efficient manners. I love this book!

Essential for anyone who wants to buy a house. I found this book to be super informative and helpful. Credit repair is such an art I had no idea!

Haven't tried any of the techniques yet but the letters look very useful and saved me work. Looking forward to getting my FICO into the 700s

I had no idea how key credit is to every aspect of life. I found this very helpful.

The tone was engaging, but the content was limited and obvious. The information was very general and more would be gained from a Google search, for a plan.
