ROUGH (Biker MC Romance Book 2)

Synopsis

Tegan Raccini's heart has been hardened her parent's divorce, and by the recent loss of her bad boy biker lover to a life-long prison sentence. She isn't bitter; in fact, she's rather upbeat. But, she simply doesn't trust men. When she causes an accident with a motorcycle on the freeway, she's immediately attracted to the handsome biker, but knows she can't stand another heart break. Even though she's unemployed, she agrees to pay for the damages, hoping to never see him again. To earn the money for the repairs to his motorcycle, she accepts a job as the in-home caregiver for an elderly man who is confined to a wheelchair. There's one problem when she shows up at his home. A BIG problem. He's the biker's father. ROUGH is a stand-alone MC Romance with no cheating, no sex outside the relationship, and no cliff hanger. It has an HEA, and although it is book II of a series, no other book is required to tell this tale. For the complete experience, and to understand the ancillary characters fully, reading HARD before ROUGH is recommended.

Customer Reviews

I love Scott's stuff.. Im never let down, EVER!!! absolutely love Scott's books. He is one of my auto

1 click authors. I never even read the synopsis bc I know I am going to love whatever he has written. He is my go to author when I am in a book funk. I can re-read one of his books and get over any funk I am in. I've not read anything by him I haven't loved. And *Rough* is no different. I loved it from start to finish. I loved that there was a bit of what I call romantic comedy in this one. It was a little different than his other books. I found myself chuckeling throughout the book. Pee Bee -- Oh my.... 6'8 of tattooed muscle? Yes please. I loved that he didn't take life too seriously. Loyal to a fault but learned to find the good in most situations. Unless you ruin his bike...then he isn't finding humor. What do I mean?? You have to read the book. Teagan -- Love her name and loved her character. One thing I love about Scott's books is that he never has weak leading ladies. Teagan holds her own. She is snarky and sassy and full of mystery. I loved that she didn't just throw all her business out there. Again, Scott's MC life has carried over. One of the reasons I love his MC books is bc they are real. As someone who has lived it, I appreciate that the books are not over the top, they are real and believable. Even if some situations seem to far fetched, his expertise comes thru. His books are raw and gritty and I love love love them. Although *Rough* can be read as a stand alone, I recommend you read book 1 - *Hard* - before hand. Just bc it lays out the basics of this MC. Besides, who can say no to a bad boy biker???

Sexy and sinful bad boy biker romance.. Yes please!! PeeBee and Tegan's story is that and so much more! I should have known a romance by Scott Hildreth would be filled with emotions that grab the reader and hold you for the entire ride. Forget everything you thought you knew about romance and throw it out the window. Pee Bee and Tegan will redefine the genre. Independent and strong on her own, she is more than a match for him and he will surprise you with the depths of his feelings not only for her and his family but even those close to her. Having already liked Pee Bee from book 1, I have been waiting for his story and it is so worth it!! This is book 2, but easily read independently although I strongly recommend reading *Hard* (Book 1) to have even more understanding of some of the secondary characters.

Alright. It's taken hours to think of how I am going to write this review, 1. Without spoilers and 2. Without crying. This book gets you right in the feels. It's not just a book about PeeBee and Teagan. It's a story of life lessons, heartbreak, happiness, and finding the person you are meant to be with forever. *ROUGH* hit me hard, there were so many different factors in this book, PeeBees dad was a pain in the butt from the beginning who you end up falling in love with too. It's easy to tell where PB gets his charm from. And Tegan, well she wants nothing to do with men, until she hits this bad biker

with her car door and he is all she thinks about. A situation with Peebee's father brings them together, she kicks his hiney, and honestly so to say the rest is history. Seriously though when you do take time out of your day to read the masterpiece, have a box of tissue ready, you will ugly cry, it is guaranteed.

I've read most of Scott's books and this is the best one yet. To be able to pull so much emotion out of this story is crazy. It's so much more than just a biker book. It's almost a coming of age book. Pee Bee finally becomes a man and lives up to his father's expectations. It's about a father and son brought together by this spunky little home care nurse. It's a story of love and loss and discovering what love truly is. An absolute must read.

This is Scott's best story to date! Scott has woven a cast of characters that come together to create an incredible story of love, devotion, family and brotherhood. Tegan and Pee-Bee do not meet under the best circumstances, but sparks soon fly! Add in a 30 year old corolla with only one door, a cantankerous father who loves teaching life's lessons, a gay friend who can't seem to stay away from an abusive ex, an MC club that looks after their own and a game of scrabble and you get pure magic! This book takes you on a roller coaster ride of emotions, so hang on tight and get ready for the ride of your life.

To say I devoured this book would be an understatement. I fell hard for both PeeBee and Tegan and their unexpected love story. Rough is what Scott Hildreth does best: he gives us tough as nails characters with flawed hearts of gold. I could not put this one down. From their very first 'meeting', you just knew these two would find a way to not only continue to break each other's balls but to somehow crawl inside each other's souls and fill it like no one else could. It's a book that doesn't waste time with extraneous nonsense. Yes there are moments with Crip and the rest of the club and a great secondary character in Tegan's bestie Marcus but this is PeeBee and Tegan's story. A tale about family and finding your way to another's heart because the time is simply right. With the guidance of the ornery, foul-mouthed but extraordinary man that is Pop and believe me, the man stole the show more than once, our couple was destined to make it, whether or not they even wanted to. Pop is a force to be reckoned with and his words of wisdom delivered during his time with his crispy bacon or when beating Tegan at Scrabble, were certainly something to ponder. The man that PeeBee becomes when he is with Tegan is clearly a reflection of his father's love and the devotion his parents had for each other for 50 years. There are times that are bittersweet in Rough

but there is that trademark Hildreth wit and gripping passion that make this book complete. It's like coming home for me in a way. I feel like I did when I first discovered this author in Finding Parker and I'm so very glad I could get lost in his words once again. Oh and I may have even learned a few new ones during the infamous Scrabble games...an unexpected bonus!! I am thrilled to give this book a huge 5 stars!!
