The Build: Designing My Life Of Choppers, Family, And Faith

Synopsis

The Build reveals the "behind the scenes" story of the popular TV reality series American Chopper for the show's millions of fans. Author Paul Teutul, Jr., is arguably the most creative builder of custom "chopper" motorcycles in the world. His talents were revealed to millions of TV viewers worldwide on American Chopper, as well as later on a spinoff series, American Chopper Senior vs Junior. The Build gives the reader a look at Paul Jr.'s life behind the camera, which included volcanic conflict with his father and business mentor, Paul Sr. Using his own story of improbable success as an illustration, Paul Jr. offers insights on how anyone can find and activate often hidden talents. In a charming, often humorous way, The Build is a rallying cry to unleash God-designed creativity and live life to the fullest.

Customer Reviews

PAUL TEUTUL JR was just 27 when American Chopper: Jet Bike premiered on the Discovery Channel, featuring "Paulie" and his father, Paul Sr., building a custom chopper for 2002's Laconia Bike Week. Part of Bike Weekend, the one-off special and the intrinsic family dynamics so captivated audiences that a full series following the Teutuls and their business, Orange County Choppers, soon followed in 2003. Six years of family ups and downs ensued, culminating in 2009 with Senior firing Junior, who waited out his one-year non-compete clause before establishing his own business, Paul Jr. Designs. Today, Paul Jr. Designs continues to thrive, producing custom bikes for a variety of individual and corporate clients. There have been TV commercials and personal appearances since 2012 as well, but the most important development in Paul's life

occurred when his wife, Rachael, gave birth to their son Hudson Seven Teutul in February 2015.
