Customer Reviews

I bought this cd thinking that it went with my piano student's Music for Little Mozarts Book 1 Lesson Book. The cd is cheesy, has stupid songs and doesn't go at all with the book. I thought at the very least it would be good to have to accompany my student while he practices at home or to hear his songs at home. Not so. This book has synthesized music with awful singing. No piano playing and definitely not for accompanying during practice. It's not even fun for my own little ones to listen to in the car because the songs are too stupid- very lame purchase.

As a teacher I can definitely assure that this CD is a great addition to Early Childhood version of Little Mozarts. Songs on this CD allow children to explore fundamentals of the rythm by singing along, clapping, tapping, jumping etc. to the rythm of music. Every motion is described in song lyrics. It completes this course!
