The Complete Idiot's Guide To Rock Hits For Ukulele: 25 Great Rock Hits For Ukulele -- You CAN Play Your Favorite Songs!, Book & 2 Enhanced CDs

Synopsis

This book and two CD combo is like having a friend show you how to play all your favorite songs on ukulele. You'll learn 25 classic songs by artists like Led Zeppelin, Green Day, Radiohead, Eagles, Cream, Pink Floyd, The Allman Brothers Band, Israel "Iz" Kamakawiwo'ole, and many others. Each song is transcribed in full music notation and TAB, and comes with a lesson that contains tips, techniques, and information about the artist. We've even provided a short refresher course on music theory, and a huge chord dictionary in the back of the book. The two CDs contain ukulele versions of every song and computer software that lets you mute the vocals or ukulele, slow tracks down, and loop sections for practice.

This is a beginner to average learning tool. I has familiar songs in it, with music. It comes with a set of CD's so if your not familiar with the song, it will give you the melody. Its full size which is nice. It includes a chord chart and a lot of tips on how to play the variety of music. I would recommend this book for anyone wanting to learn to play on their own. The most complete book I have seen to date so far. I play some guitar, so it was easy for me to pick up the concepts of this music. As with any instrument the key is practice. If you don't get it, you have to be persistent and keep on trying. Eventually you will get it right. This book does not take the place of regular practice. Nothing does... but it does make the practice easier, which is the point. If you use this book every day for an hour, at

the end of a week, every person should be able to play at least 2-3 songs in this book. Once you get the easy chords, and get your strumming going, you'll be able to learn at a faster rate. Gotta get those fingers limbered up, strengthened and the chords will come with practice...

I am looking forward to becoming a well enough ukulele player to give this book a go. BUT it is not for idiots!! You do need to already have a good handle on the ukulele and music-reading for this book. It quickly ended up on the bottom of my ukulele book pile, with me saying, "this one is for later on down the road." Looks like a great book with a great selection of songs. Perhaps I misinterpreted the title, thinking it was for ukulele beginners.

A fabulous book for my 16 year old and her Uke!

great gift last year

Just as described, fast service.

Good book for beginners. East to read instructions.

This is the best instructional book I have seen. The book includes two (2) CDs that you can play in your computer or CD player. It will slow the songs for you, repeat them on a 'loop' or even change the pitch of the song. You can also remove the vocals or the ukulele portions. It is still going to take some time for me to learn the songs fully but far easier than other methods I have tried. I am hopeful they publish another similar book. I highly recommend this book and the CDs to a beginner or intermediate ukulele player.

good book
