Customer Reviews

Great book for starters. Bought this book for my son who was just learning to play trumpet in school. It was a required follow up to book one. He is doing great with his learning and at least some of that has to do with being able to read the books and tunes in them.

Just what we needed for my son's trumpet. His band uses this series of books and when I searched for the trumpet version, this book came up. However, nowhere in the details or in the picture did it say that it was for the Trumpet. When I received the book, though, it was labeled for the Trumpet. (Each book in this series has the appropriate instrument listed on the line above the title of the book.) Just what we needed.

My son has to have this for band at school, and buying it new just doesn't make sense. This was an

amazing price & was shipped quickly & in great condition.

The perfect book for my son's band class.

See my review of book 1.Using with my band, and so far its good to go as a teaching aid.

Great price. Good timing-it arrived just in time for school. Very good chance we will use this buyer next year.
