Siegels Wills & Trusts: Essay And Multiple-Choice Questions And Answers, Fifth Edition

Synopsis

A proven resource for high performance, the Siegel s series keeps you focused on the only thing that matters the exam. The Siegel s series relies on a powerful Q&A format, featuring multiple-choice questions at varying levels of difficulty, as well as essay questions to give you practice issue-spotting and analyzing the law. Answers to multiple-choice questions explain why one choice is correct as well as why the other choices are wrong, to ensure complete understanding. An entire chapter is devoted to teaching you how to prepare effectively for essay exams. The chapter provides instruction, advice, and exam-taking tips that help you make the most of your study time. A wonderful resource for practice in answering the types of questions your professor will ask on your exam, the Siegel s Series will prove valuable in the days or weeks leading up to your final. Features: Exposing you to the types of questions your professor will ask on the exam, Siegel s will prove valuable in the days or weeks leading up to your final. A great number of questions at the appropriate level of difficulty 20 to 30 essay Q&As and 90 to 100 multiple-choice Q&As provide opportunity for you to practice spotting issues as you apply your knowledge of the law. Essay questions give you solid practice writing concise essay answers, and the model answers allow you to check your work. An entire chapter is devoted to preparing for essay exams. In checking your answers to multiple-choice questions, you can figure out where you may have erred: Answers explain why one choice is correct and the other choices are wrong. To help you learn to make the most of your study time, the introductory chapter gives instruction, advice, and tips for preparing for and taking essay exams. The table of contents helps you prepare for exams by clearly outlining the topics tested in each Essay question. In addition, you can locate questions covering topics you're having difficulty with by checking the index. Revised by law school professors, the Siegel s Series is updated on a regular basis.

Customer Reviews

[Essays] This book gives a lot of analysis, which are all over the place. When I read it, I thought that previous years in law school were pure waste of time because I did not get answers to questions written in such a "all over the place" manner. I consulted my academic department and showed this book to figure out what is wrong with it. They expressed the same opinion. Not only "all over the place," answers contain analysis only w/o rules of law. Although the analysis have keywords, this is not enough for the final. A student could use the book as guidelines only.[Multiple choice] The questions in MC section do not even specify whether you are in a common law jurisdiction or under the UPC. It is a shame to write such a disorganized book & it is worse to publish such a book w/o reading it. The fact that the author is a professor, does not mean that she is a good teacher. Knowledgeable professor is not equivalent to a gifted teacher capable of teaching law. Stay away from this book. Two stars for using it as guidelines. Shame on professors publishing books like this one.

When I was a college student, I often used old tests as a study aid to prepare for examinations. This also held true when I was a law student. Now that I am teaching paralegal studies, I am the person who has to come up with the questions. I had been used to long essay questions in law school, but those proved to be inappropriate for paralegal students. Paralegal students tend to favor true false and multiple choice questions, which are really difficult to write. There is a certain logic in how examinations are prepared by instructors and professors, and Seigel's Wills and Trusts provides some insight into how they are prepared. I was able to have some guidance in preparing exams through the use of this book. For the student, this book is good in that it covers the basic concepts. I am not saying that your instructor will use this book to prepare his exams, but through the study of this book you should be able to have sufficient understanding of the topic material and how it is presented in an examination to prepare well for the exams given at the end of a course.

This is not an aid to teach you the material (Emanuel's) but is a great study aid to practice and sharpen your knowledge for an exam. I found the multiple choice questions a great and quick way to review. The E&E does not provide helpful short answer questions like this supplement does. It

could use more questions, and be expanded, but is a good way to prepare for your Wills/Trusts/Estates exam.

This book is OK. Most wills and trusts classes are bar prep classes so they are heavily geared toward your individual state. This book is great if you live in a UPC state or if your prof teaches UPC. My prof teaches California law so it was not as helpful as it could have been. I basically had to compare each answer against the statute. That is time consuming. Also there is no index of questions by topic. There is an index by UPC number. If you want to find a couple of questions on, say, wills contracts, there is nothing to do but wade through the multiple choice questions until you find it.

The quality of a kindle edition is absolutely awful. The multiple-choice questions and answers are not shown in full. Nor the direct reference from questions to answers is available. I wish I had a hard copy before my exam but now it's too late to regret

Love this book- the MR questions were really similar to those on my final. For the questions I missed, the explanations really cleared up my lapses in application. I cannot imagine better material for review.

I like the Siegels series because they offer essay questions with full answers. This book was exactly what I expected. With 20+ essays and over 100 multiple choice questions, this was a good study aid.

This was the best part of my entire wills and trusts class, lots of examples and problems to work through.
