Customer Reviews

It's been very useful. My only critique would be to include pronunciation in parentheses or in a third column. As the author states, pronunciation does not always resemble the written word. That said, I really like this book and think her premise of showing how Danish is similar to English is a real shortcut. I would recommend it to anyone studying Danish.

it is a short-cut it's not going 2 teach u danish but it positions U 2 learn more quickly & a good reference 4 other books

Here's what you get for ten bucks. The book is so thin and flimsy, I couldn't get it to lie flat on the table for a photo. It's mostly lists of vocabulary words, which can easily be found online for free.

Easy to understand and use.
