Emily Gets Her Gun: But Obama Wants To Take Yours

Synopsis

In the wake of tragic shootings in Newtown and Aurora, the anti-gun lobby has launched a campaign of lies, distortion, misrepresentation, and emotional manipulation that is breathtaking in its vitriol and its denial of basic facts. Their goal is to take away our Second Amendment rights and then disarm law-abiding Americans. Emily Miller tells her personal story of how being a single, female victim of a home invasion drove her to try to obtain a legally registered gun in Washington, D.C. The narrative - sometimes shocking, other times hilarious in its absurdity - gives the listener a real-life understanding of how gun-control laws only make it more difficult for honest, law-abiding people to get guns, while violent crime continues to rise. Using facts and newly uncovered research, Miller exposes the schemes politicians on Capitol Hill, in the White House, and around the country are using to deny people their Second Amendment rights. She exposes the myths that gun grabbers and liberal media use to get new laws passed that infringe on our right to keep and bear arms. The gun rights debate isn't just about firearms. It's about protecting a fundamental right that is enshrined in the U.S. Constitution. It's about politicians who lie, manipulate, and outright break existing laws to get what they want. It's about President Obama wanting a bigger federal government to control you. Not just your guns - you. The fight for gun rights is the fight for freedom. Emily Miller says stand up and fight back now because your Second Amendment will only be the first to go.

Customer Reviews

Well written, comprehensive, unbiased. Her story is a good example of the rampant injustice and erosion of American unalienable rights purportated by our own government!

This is a well written book that not only tells the story of how difficult it is to purchase a constitutionally protected firearm in the District of Columbia but also details steps the current administration has taken to try to take away those rights across the country.

Everyone concerned pro or con, with 2nd Amendment rights should read this. Although the author has her picture on the cover, this is NOT just a book for women. Emily Miller has many facts from her own experience and research that I've not read before, and all the facts are well documented in the appendix. The book is written in an appealing style with Emily alternating telling her story of the long process of acquiring a gun in the very unfriendly to gun purchasers, Washington DC, and facts related to the DC gun laws and the very difficult process DC instituted to limit legitimate gun purchases. Emily's experience is AFTER, the U.S. Supreme Court Heller Decision which allowed individuals in DC to own guns. Emily has appeared on many TV news programs and although she is petite, she packs a factual punch with her book. She is an opinion editor for a major newspaper, The Washington Times. Google Emily Miller and watch her deal with 10-15 major news anchors by showing them "just the facts". This book will make a great Christmas gift.

Gives Incite on how our government is selective in law enforcement. Bad laws are disclosed and this read shows that the intent of anti gunners is for gun laws to lead to confiscation. If you are interested in how DC views your rights and destroys your property, read this one.

One of the few well researched books or articles on the topic that contains references, statistics, and evidence to back up opinions. Not just hot air and smoke which is mostly what you hear on most political topics, but this one especially. Even Scientific American, a supposedly science oriented publication, blows away the statistics to put out unfounded opinions on this subject. Their "skeptic" who usually uses data to expose fallacies ignores the statistics to put forth his anti-gun agenda. We need more thoughtful opinions. Also, we have a constitution which set forth the principles of this country. Those are also ignored by both sides on many topics. Witness corporate greed, for example, which also puts itself above the law. The media have fed this with destructive sound bites, resulting in a national ADD syndrome making many people incapable of processing a well thought out resigning process. This is exactly the type of work that is needed - of course, even

this book is written in a populist style - I understand, you have to sell copies to make money, but at least hidden inside is evidence. Thank you.

Emily Miller has true grit. She writes extremely well. She is witty, but she also is very precise in describing exactly what anyone would have to go through to buy a gun in D.C. She also was spot-on in her descriptions of her shooting outings at the gun ranges. A fun read, and a cautionary tale for anyone who is thinking about trying to buy a gun in D.C., or any other jurisdiction that is intent on doing everything possible to deny responsible citizens the right to purchase weapons. I also want to go to lunch with Emily Miller.

with no particular ax to grind wades into the bureaucracy and finds exactly what you'd expect. Alice in Wonderland down a rabbit hole of obfuscation, confusion and incompetency (if serving the public is the goal and competency if serving their own unconstitutional agenda is the goal).With quiet charm and resolve Emily perseveres and points out the inconsistencies and the unlawfulness of DC politicians and their attempts to ride rough shod over a Constitutionally protected right...the right to self-defense with something other than a butter knife.After years of listening to the anti-gun crowd crow on about safety, after years of listening to them deny the evidence, I still don't get what informs their opinions other than a warped sense of the law and gov't power, both driven by fear (and an odious grab for power).They lie to us, they lie to themselves and everyone suffers as a result.Emily brings a unique pov to this debate and with a sense of class.Thank you Miss Miller.

Recommended for all the 2nd amendment supporters. This book shows how far and willing the government will go to take away your American rights
