Customer Reviews

Fabulous pictures and actually interested me in iron skillet cooking. However, I gave it as a Christmas present and he is quite pleased and achieving great success in his iron skillet cooking endeavors.

I like the recipes and each one has a great picture that shows you what the dish looks like. With a few exceptions there aren't any very special, high priced ingredients that make preparing a recipe a chore. The reason for the loss of a star is because she doesn't recommend a pan size for her recipes. Sometimes it doesn't make a difference but making a Frittata or a cake in an 8" pan versus a 12" makes a real difference. I would have liked her to at least suggest a size. Even better would have been if she has said up front that all recipe's use a X" pan unless otherwise stated and then told how to adjust in case you don't have that size pan.

For a book with such a small amount of recipes separated by breakfast, lunch, dinner, etc., there should be much better recipes in a published cookbook. I would not recommend this book.

New recipes, I have made several already!
