Shut Up And Edit: Quick Tips For Polishing Your Book Like A Pro

Synopsis

Shut Up and Edit is an entertaining, yet practical, guide for new and experienced authors who want to better their writing and revision skills through self-editing. In this book, the staff of CLS Editing lead the user through the keys to self-editing success, creating the right environment, completing content and line edits, choosing and using automatic editing and audio software, preparing a manuscript for submission, and selecting professional editing services. Anecdotes, detailed examples, worksheets, diagrams, and easy to remember tips accompany CLS Editing's forty-three point Quick Edit List to help the user quickly identify and correct some of the most common errors made in fiction manuscripts such as tense, point of view, punctuation, and style issues. Though this manual cannot replace a professional editor, it will help authors develop better proofreading and writing habits by offering easy to understand tips, tricks, and lessons on how to create a cleaner, more powerful manuscript.

Customer Reviews

I work exclusively w the editor and love the work she does. She's full of vital information that any

author would be grateful to have. My only other desire is that the book was in print as well.

As an author, self-editing is a must. This guide has been really helpful in making sure my work is as polished as possible and has also been great at helping me remember the little things I have a tendency to forget. My writing is so much cleaner (and stronger) as a result of using this book and I can safely say it has a permanent place on my desk and in my self-editing regime.

Like the title suggest, Shut Up & Edit offers a quick, no nonsense, writer reference for polishing manuscripts. It's an economical choice that features words of wisdom gleaned from seasoned writers who know from experience the pitfalls of self editing. Shut Up & Edit: Quick Tips for Polishing--a great buy for your reading and writing dollar.

A good book both for first timers and chock full of good reminders even for experienced writers, CLS Editing Guide, Shut up and Edit takes you through the process of turning that first rough draft into a polished piece you can be proud of. I highly recommend it!
