Latin American Politics And Development

Synopsis

For over thirty years Latin American Politics and Development has kept instructors and students abreast of current affairs in Latin America. Now in its eighth edition, this definitive text has been updated throughout and features contributions from experts in the field, including twenty entirely new chapters on Central America, the Caribbean, and South America. New material addresses Venezuela after the death of Hugo ChÃ¡vez, Mexico and the continuing drug war, Cuba as RaÃºl Castro changes the revolution of his brother Fidel, and important changes with new presidents in Colombia, Uruguay, and Chile. In addition to detailed country-by-country chapters, Latin American Politics and Development provides a comprehensive regional overview. Five foundational chapters by the editors cover the changing context of Latin American politics, the pattern of historical development, interest groups and political parties, government machinery, the role of the state and public policy, and the struggle for democracy.

— Thanks to the painstaking efforts on the part of the volume's contributors, who have continually endeavored to keep this well-established political science anthology up-to-date, the 8th edition of *Latin American Politics and Development* offers a comprehensive and current examination of politics, economics, and society across contemporary Latin America. — The strengths of the Wiarda and Kline book are that many of the country chapters are well-written and follow a similar outline.

— Sherrie Bayer, CUNY, City College

— The greatest strength is the breadth of country coverage by contemporary country specialists. 20 countries

— including major countries like Peru as well as all Central American and a couple of Caribbean countries (besides Cuba). Country analyses are ideologically neutral for the most part. Historical narratives are usually of appropriate length and have been kept up to date. Analytical themes are usually jargon free and therefore accessible to more general college audiences.

— Philip Meeks, Creighton University
