Product Dimensions: 10.9 x 8.5 x 1.3 inches

Shipping Weight: 3.4 pounds (View shipping rates and policies)

Average Customer Review: 4.5 out of 5 stars 17 customer reviews

Best Sellers Rank: #1,234,105 in Books (See Top 100 in Books) #46 in Books > Crafts, Hobbies & Home > Antiques & Collectibles > Coins & Medals > World Coins #972 in Books > Crafts, Hobbies & Home > Antiques & Collectibles > Antiques Care & Reference > Reference #1372 in Books > Reference > Encyclopedias & Subject Guides > Cooking

Customer Reviews

This book covers all Spanish and Spanish colonial issues, plus Republican issues to present from former Spanish colonies (in addition to the Portuguese material), including counterstamps, hence a great boon to readers of my catalogs, with listings of every date in every denomination and values for up to 7 grades, and of course many photos. --Daniel Frank Sedwick, LLC

I've always been a fan of the Krause Standard Coin Catalogs over the past 40 years,so thus have a lot of them around. In recent years I've suddenly been getting a lot of Spanish and South America

cob coins etc., and needed this specific publication.....which was very hard to find when I wanted it. Took me ages to find a copy. Glad to see it might be more easily available again.....sure beats having to dig through a dozen different assorted catalogs.

647 pages of dated information. The book is formatted much like the Red Book. Published in 2002, it's pricing would be as valuable as a 2002 Red Book, i.e. not very useful in a 2013/14 market. The quality of print is significantly substandard and many of the photographs are of poor quality. This may be due to limited availability of high quality photographs, but is an area that needs work. I am a neophyte researcher in this arena, but it does appear that a significant amount of the information is inaccurate, particular mintage numbers. If Krause could update the book to reflect the current market, improve the photography and find a decent printer the tome would be of much greater value.

tough to find a guide that encompasses so many varieties of Spanish and Portuguese coins--this is it

Good for the collector

If you are interested in Spanish-Colonial coins and cobs, this book is essential. The book was published in 2002, which means prices are not current. However, it's the detailed descriptions, photos, and history of the coins that makes it so valuable. Even Krauses most recent coin books don't have current prices. And unlike Krauses other guides, this one covers all dates for all coins, up until approximately the date each country gained it's independence from Spain.

Fairly good. It mainly works as a referencial point.

Very nice catalogs, thank you very much. Recommend AAAAA*****

This is a very comprehensive book, and one of the few that go all the way back to colonial times. The descriptions, pictures, and valuations are very useful to any serious coin collector.
