Where The Road Takes Me

Synopsis

Chloe has one plan for the future, and one plan only: the road. She's made a promise to herself: don't let anyone in, and don't let anyone love her. She's learned the hard way what happens if she breaks her rules. So she's focused on being invisible and waiting until she can set out on the road • her dream of freedom, at least for a little while. Blake Hunter is a basketball star who has it all • everything about him looks perfect to those on the other side of his protective walls. He can't let anyone see the shattered pieces behind the flawless facade or else all his hopes and dreams will disappear. One dark night throws Chloe and Blake together, changing everything for Blake. For Chloe, nothing changes: she has the road, and she's focused on it. But when the so-called perfect boy starts to notice the invisible girl, they discover that sometimes with love, no one knows where the road may lead.

Trust that the most unexpected person to fall into your life will actually be your life and soul. Jay McLean does not write to write, she writes to feel. She puts herself 100% all in with emotion and

heart from the second the words form with in her. You cannot just read Jay McLean

you feel her from the top of your head way down to your toes. From the thoughts in your brain to the depths of your heart. She can evoke feels from places you didn't know existed and never dreamed possible. Where the Road Takes Me was the most unexpected things I've ever read from her. I had nothing to go on except "it's Jay McLean and it was better, way better than I could have thought of. I was blown away by her sheer ability to write a great story. One that I can completely lose myself in over and over and over again. One that will stick to me even after it's been read. One that even days later, can make me quote or re-read sections because it was THAT GOOD. The characters oh the characters FANTASTIC!!! I fell in love with each of them so hard. I mean Chloe adorable, troubled and strong as hell Chloe. Melted my heart in eleventy three different ways. BLAKE HUNTER is a freak on GOD!!!

"I placed his hand against my heart so he could feel the impact this had on me. You've just completed me" DIED!!! I mean who recovers from that??? Jay McLean had me brought down to puddles of emotional mush just from the sheer building of this relationship! DO NOT even get me started on the friendships in this book. I mean AMAZING!!! Everyone's characters evolved and matured in the course of a summer to the point where I couldn't imagine NOT reading them. Friendships were made and lives were changed. I was in awe of how seamless Jay made everything. Josh and his determination, Blake and his blind faith, Chloe and her acceptance nearly killed me. "And that's when it happened. Something changed. A switch. It felt like someone had taken away the grey dullness behind my eyes and splashed color into them.

That's what Jay has done to me. She has turned on the light and I see beautiful vivid color. She has taken me to a point of no return as a reader. She has held my hand through the heartache to heal and be rebuilt again. This book was amazing, beautiful, thoughtful and above all else magnificent. It is her best work yet. I am so proud of Jay and this book and all that it represents to her and the book world. She has turned my world red in more ways than one and I will be forever grateful. This book is 100% worth all of the love and feels that you will receive from it. 5 STAR READ ALL THE WAY!!!

Words cannot describe how much I loved this book! I have been waiting and counting down the days for this book. I love love love Jay McLean. Her books have never ceased to amaze me. WOW THIS BOOK! At first I thought I was going to break my ipad the book was heartbreaking and I wanted

to whip it across the room, then there were times when I just had to take breaks and hug my iPad because of the pure emotional joy, and of course a few tears were shed. Jay has an amazing way of drawing her readers into her books and building that relationship between the reader and the characters. I definitely felt that she made the characters realistic and relatable and easy to fall in love with! This story is a wonderful read with one heck of a rollercoaster ride that will have you angry, sad, ecstatic, and bursting out laughing all over. Chloe's journey and story throughout this book is thrilling and something new that Jay has brought to the table. I love the way the character relationships intertwine and the way romance blooms as well. This is not your typical love story but rather a more realistic story with ups and downs, where a couple is thrown obstacles and may have to jump through hoops to get there but it is worth it in the end. Chloe and Blake are truly strong characters that support each other and I simply love them. I recommend anyone who is a fan of Jay's to read this as well as anyone who enjoys heartfelt YA Adult love stories!

I've never ever experienced a book like this, and that's extremely hard to say for me because I read so much. For a topic that is so near and dear to my heart I can't even express the emotions and the memories this book brought up. My heart ached for Chloe but that ache made me want to root for her so much more. And my dearest, most dedicated Blake! He was what a girl in Chloe's situation should dream for. I'm so obsessed with this story, I could go on and on about it but in reality you just have to READ it and EXPERIENCE it for yourself to understand. I've always been a fan of Jay McLean from her very first book and they've all be so amazing but I swear, I'm seeing nothing but Red Letter Days for her career in this writing world. She's an inspiration to me and Where The Road Takes Me is forever imprinted onto my heart and soul.

Nobody writes emotion like Jay Mclean. The stories that she tells are pure magic. She can take a single word or phrase and make you feel so deeply that you weep. You feel every single word in your bones and you carry it with you. It becomes a part of you. That's more than writing talent. Like I said, it's pure magic. This is a story best gone into blind. Each person will walk away with something different, but for me it's a story about the courage to hope. It's about two people who never knew they needed anyone until they found each other. It's about the journey they take to find themselves and each other. The roads we take in life aren't always easy and they aren't always the one's that we plan for ourselves, but the things we learn along the way make us who we are. This book tells that story perfectly. With Jay McLean you always know you're going to feel something extraordinary. You are going to feel every emotion on it's highest level. You may hurt along the way, but when you

get to the end, you will soar. This book is now a part of the fabric of who I am.
