Exciting recipes! I've wanted to try dump recipes for a long time, but I just couldn't use most of the ones I found because they were either sweets or carb laden casseroles full of noodles and such. This is a great cookbook for those of us trying to go low carb without feeling deprived. I want to try everything I've seen so far, and I tend to be a bit picky, usually. Thanks for letting the low carb crowd get in on the dump meal craze. Very helpful book! Really worth purchasing!

Great cookbook! There are a lot of informative and healthy recipes that we will be using from here. Low-carb eating requires meal planning and prepping. A Dump meal is a meal you can dump in a single pot, dish, or bowl and then forget it. This book is just exactly what it claims to be: a bunch of easy one-pot slow cooker recipes, low carb.

Great book. Great recipes. Glad I added it to my collection. :)

Great menues

Not all low carb

Me and my friends loved Don Orwell blogs and one of my friend collecting cookbook from this guy and she gave us recipes from the books. And as for me, this one gives me the best recipes I tried before. This book served low carb dump meals that I can accompany with my lose weight program. Great book with great recipes.
